## JIBC Law Enforcement Studies Diploma

---

### About the JIBC

The programs and courses offered at the Justice Institute of BC cover all aspects of justice and public safety - you won't find this unique range of programs offered anywhere else in North America.

[Course Calendar](#)

***Give students a head start on their careers in investigation, enforcement or security.***

This exciting new program will give students the theory, applied skills and specialized knowledge they need to help prepare them and improve their chances for entry-level employment as a police recruit, correctional officer, deputy sheriff, border services guard or in another law enforcement occupation. It will also prepare them for advancement in the rapidly-growing private security field.

*"If you're looking for a position in the law enforcement area, this diploma will put you light-years ahead of someone who doesn't have the practical training."*

Dave Maedel - Executive Director, Sheriff Services Division, Ministry of Attorney-General
