### **GENERAL DVDs**

---

D1652      **Forensics on Trial** (DVD, 60 minutes)  
There is a startling gap between the glamorous television world of 'CSI' and the gritty reality of the forensic crime lab. In this program, NOVA investigates how modern forensics can send innocent men and women to prison, and sometimes even to death row. It investigates today's shaky state of crime science as well as cutting-edge solutions that could help investigators put the real criminals behind bars. (PBS)

- |       |  |
|-------|--|
| D063  | <p><b>Crime Scene Preservation</b> (DVD, 30 minutes)</p> <p>Makes line officers and supervisors aware of how to best preserve a crime scene inside a correctional facility. The program contains step-by-step instructions for officers who are the first ones responding to a crime, and for supervisors regarding their role at crime scene. The program also covers basic procedures for preserving and recovering evidence so that its integrity is not destroyed. (Lockup USA) (HV 8073 C755 1991)</p>  |
| D1658 | <p><b>Crime Scene Preservation: Body Armor Legislation; Accident Safety</b><br/>(DVD, 38 minutes)</p> <p>This program stresses the need to maintain and preserve the crime scene and how to gather vital evidence. Sections deal specifically with homicide scenes, rape scenes, arson scenes, accident scenes and a night scene. A backup section focuses on attempts to promote body armor legislation designed to make it illegal for convicted felons to possess and wear body armor. Another backup section underlines the need for caution at scenes of traffic accidents. (In the Line of Duty) (HV 8073 C754 1999)</p>                                     |
| D919  | <p><b>Protect the Crime Scene</b> (DVD, 10 minutes)</p> <p>Reviews the role of the first police officer upon arrival at a crime scene. (R.C.M.P. Training Directorate) (HV 7921 P763 1995)</p>   |
| D1764 | <p><b>Responding to a WMD Crime Scene</b> (DVD, 28 minutes)</p> <p>Emergency responders may find themselves responding unknowingly to a criminal incident involving weapons of mass destruction (WMD). This is an entirely new and different set of responsibilities for the emergency responder. The purpose of this video is to demonstrate the responsibilities of recognizing, identifying and preserving potential evidence at a WMD crime scene, thereby affording the best possibility for positive identification of suspects and successful prosecution. (U.S. Department of Homeland Security Office for Domestic Preparedness) (HV 551.3 R479 2004)</p> |

**D1466 Scene Contamination** (DVD, 23 minutes)

This program reviews the different functions of fire fighters, paramedics, police, and medical examiners at a crime scene or traffic accident. It explains the procedures of each and points out how unnecessary actions can contaminate a scene. It promotes a team approach to emergency response and raises awareness of scene contamination. (Calgary Police Services) (HV 8073 S343 1992)

D1064      **Forensic Field Techniques for Human Remains** (DVD, 94 minutes)  
"This program provides a comprehensive introduction to the application of forensic science to crime scenes where human remains have been found. Promoting a team approach to crime scene analysis, Scott Fairgrieve, Tracy Oost, and Gerard Courtin, faculty members of the Department of Forensic Science at Laurentian University, cover the following topics: the decomposition timeline, identifying human remains, identifying burial sites, locating remains via grid-based searching, establishing the crime scene, forensic botany, forensic entomology, forensic anthropology, and special considerations for dealing with remains that have been exposed to water or fire. An excellent tool for training police officers, coroners, medical examiners, firefighters, forensic scientists, and students. Viewer discretion is advised."--Container. (Lighthouse Media)
