More CDs from the Library

CD-ROMs continue to be a very popular commodity in the Library and these newest acquisitions demonstrate why. As you can see from the descriptions of these recent additions to our collection, this flexible and portable medium supports an amazing amount and variety of information including video streams, interactive programs, slide shows, vast amounts of text and data, and even the content of complete textbooks.

Emergency Responder’s Guide to Terrorism by Michael E. Marks is available as a traditional textbook as well as in CD-ROM format. This first-responder’s field guide and classroom awareness-level training manual focuses on the unique dangers associated with biochemical warfare agents, radiological dispersants, as well as more conventional incendiary, explosive and ballistic threats common in terrorism scenarios. The target audience is all emergency responders: firefighters, paramedic/EMT and law enforcement, security personnel and industrial plant managers/facility managers responsible for in-house training and preparedness. The chapter topics include an overview of terrorism; types of harm; explosive weapons; chemical weapons; biological weapons; and nuclear & radiological weapons. The textbook takes extensive advantage of photo-realistic 3D imaging technologies to present information in a clear, vivid and very engaging manner. The CD-ROM version contains an electronic version of the text with color graphics, full word search capabilities, and Web links to important sites. The textbook and the CD-ROM are both published by Red Hat Publishing. (HV 6431 M275 2002 — Book or CD-ROM)

The Burnaby Fire Department has produced an interactive CD-ROM for children. The Fire & Safety Challenge, narrated by “Captain Bob,” presents the fire prevention message to children through a variety of activities including: a tour of a fire station, a house fire challenge, a safety house challenge, a template to produce a customized fire escape plan, and messages targeted to specific age groups. (TH 9182 F573 2003)

On April 23, 1999, the Supreme Court of Canada released its decision in Regina vs.
### CORRECTIONS

**An Examination of Aboriginal and Caucasian Women Offender Risk and Needs Factors** by Colleen Anne Dell and Roger Boe. Ottawa, Ont.: Correctional Service of Canada, Research Branch. (HV 6046 D446 2000)

**Youth Criminal Justice Law** by Nicholas Bala. Toronto, Ont.: Irwin Law. (KE 9445 A323 B243 2003)

BOOKS

**Dive-First Responder** by Richard A. Clinchy III. St. Louis, Mo.: Mosby Lifeline. (RC 1005 C56 1996)

**Ice Diving Operations** by Walt Hendrick and Andrea Zaferes. Tulsa, Okla.: PennWell Corp. (GV 838.674 S74 H46 2003)

VIDEOS

This program investigates flooding from all aspects, including how to train and equip the fire department, how to operate in flood waters, how to protect your family, and how to plan ahead. (American Heat, Inc.)

**V2503 The Hazards of Diving in Delta P Work Environments: Identifying the Hazards and Eliminating the Risks** (video, 11 minutes, 1999)
Differential pressure (Delta P) refers to the pressure differences between two bodies of water. If the difference in pressure is extreme and the water is released, a Delta P situation occurs. This video explains Delta P, how and where these situations arise, and how to protect divers from this deadly hazard. (Association of Diving Contractors)

**V2155 Moving Water: Adventure or Danger?** (video, 18 minutes, 1999)
Reports on the potential danger of running water in different situations such as white water rafting and caving, and the ways to prevent such danger. (National Weather Service, Office of Hydrology)
BOOKS

**Blood and Body Fluid Exposure Management.** Victoria, B.C.: British Columbia Ministry of Health Services; BC Centre for Disease Control. (RA 642 B56 B563 2002)

**Bloodborne Pathogens.** Sudbury, Mass.: Jones and Bartlett Publishers. (RA 642 B56 B56 1997)

**A Framework for an Australian Influenza Pandemic Plan.** Canberra, A.C.T.: Commonwealth Department of Health and Aged Care. (RA 644 I6 F723 1999)

**Handbook of Infectious Diseases.** Springhouse, Pa.: Springhouse Corp. (RC 112 H26 2001)

**Infection Control for Prehospital Care Providers** by Lynn Zimmerman, Mary Neuman, and Deb Jurewicz. Grand Rapids, Mich.: Mercy Ambulance. (RA 642 B56 Z56 1993)

**Infectious Disease Exposure Control Plan Guidelines for Fire Departments.** Fairfax, Va.: International Association of Fire Chiefs. (TH 9310 I544 1993)

**Protocol for Protecting Emergency Responders from Communicable Disease.** Victoria, B.C.: Office of the Provincial Health Officer. (RA 643 P766 1998)

**Yes You Can Prevent Disease Transmission.** Toronto, Ont.: Mosby Lifeline. (RA 643 Y37 1998)

VIDEO

**Infectious Diseases** (video, 57 minutes, 1999)

This program on infectious diseases offers a global perspective on the problem and the threats that pose risks for EMS personnel. It identifies three modes of transmission and discusses types of infectious diseases that may be contracted through each mode. It discusses regulatory issues and personal protective equipment designed to protect healthcare workers. The *Hands-On-Training* segment examines a case study of infectious diseases commonly contracted by prehospital providers on the job; it also covers the proper use of a Hepamask. (Primedia Workplace Learning)
New Audiovisual Materials

Library News June 2004

V2866 The A and the B: Airway and Breathing (video, 69 minutes, 2004)
Topics covered in this video focused on airway and breathing include the following: capnography (measurement of exhaled CO2); how to recognize and respond to patients with airway or pulmonary infections including SARS, pneumonia and tuberculosis; and voices of patients suffering from pulmonary diseases. The PulsePlus segment is on capnography. (FETN)

During the California firestorm in October and November 2003, the priority for all firefighting agencies became structure protection. This program looks at the tactics used by the San Bernardino City F.D. during the Old Fire in 2003. It also looks at hazards that would likely be encountered in a wildfire and discusses personal safety, protective gear, and potential health problems. The Survival training segment covers basic structural tactical initiatives. (American Heat, Inc.)

V2874 Court Hostages: Police Follow (video, 2:22 + 2:18 minutes, 1990)
This video contains a segment from the CBC Evening News, and a follow-up on the CBC News Final of June 11, 1990 reporting on a hostage-taking at the New Westminster courthouse. A man who was appearing in court on a fisheries charge grabbed 5 people at gunpoint and held them for 6 hours. It ended late in the afternoon in a hail of gunfire. Three police officers and the suspected hostage-taker were shot as the police were getting ready to move in. The follow-up segment reports that two of the police officers were treated for superficial wounds; and the suspect and another officer were taken to the hospital. (CBC Vancouver)

V2871 EMS Operational Environments (video, 62 minutes, 2004)
This program examines special problems created by responding in off-shore, wilderness, or tactical EMS (TEMS) environments and responding to incidents at special events. PulsePlus focuses on medical surveillance to detect and respond to bioterrorist hazards. (Primedia Workplace Learning)

V2865 Fix: The Story of an Addicted City (video, 92 minutes, 2002)
Tells the story of Vancouver’s adoption of its four pillar drug policy and the struggle of drug users in the Downtown Eastside to gain acceptance in the community. It also relates the story of the effort to establish Canada’s first safe injection site. (Canada Wild Productions)

Barbara Underhill and fire safety experts explore fire prevention in the home and outline programs to train children in what to do in case of fire. This program shows parents and caregivers how to plan escape routes ahead of a fire. (Magic Lantern Communications)

V2879 Inside Boystown (video, 47 minutes, 2002)
Inside Boystown is an intimate portrait of the lives of six male prostitutes who work the streets in Vancouver’s chic Yaletown district. It blends interviews with the young men with commentary from three support workers who explain the dynamics of male street prostitution: Paul Harris, a street nurse who specializes in working with high risk youth; Sandy Cooke, the executive director of Covenant House Vancouver; and Christopher Graham, the director of the Ministry of Children and Families Safe House and Detox programs. The film provides an honest and forthright look at a commonly hidden aspect of contemporary society. (Moving Images Distribution)
A Judge’s Perspective (video, 56 minutes, 2004)

Judge Cunliffe Barnett first heard about fetal alcohol syndrome over 20 years ago when he attended an FAS workshop presented by Dr. David F. Smith. Shortly after, he was the presiding judge in a child protection hearing of a young boy with severe special needs who had been apprehended from alcoholic parents. With new understanding about the serious effects of alcohol use during pregnancy he requested an assessment for FAS for this youth. In this video Judge Barnett relates the story of Geoffrey who grew up to become both victim and offender. Through several case examples, Judge Barnett portrays the stories of people with FAS in the legal system and how their disability was all too often unrecognized and misunderstood by judges, lawyers, social workers and others. (Asante Centre for Fetal Alcohol Syndrome)

Mistakes I Have Made (video, 28 minutes, 2004)

In this video, David Boulding admits to his mistakes as legal counsel defending clients with FASD (fetal alcohol spectrum disorder). However, his intention is not just to confess, but also to turn his experiences into a lesson for those in the legal profession who may one day find themselves working with these special needs clients. Some of the topics discussed include: the implications of FASD in the Canadian Charter of Rights and Freedoms; the concept of “not criminally responsible by reason of a mental disorder;” the tendency for clients with FASD to be impressionable, suggestible and easily mislead; examples of assumptions that may seem reasonable for a typical client, but would not be appropriate for a client with FASD; and the importance of obtaining an FASD assessment. (Asante Centre for Fetal Alcohol Syndrome)

PDA: Personal Disaster Assistance for Fire, Police and Public Works Departments (video, 7 minutes, 2001)

In this program, personal disaster assistance (PDA) volunteers assist two families evacuated because of a fire and a flood. This video is aimed at fire, police and public works departments, explaining how PDA volunteers can help and when the departments should ask their dispatchers to call them to the scene of an incident. (Canadian Red Cross)

Promoting Resiliency: Educator Awareness for the Prevention of the Sexual Exploitation of Children in the Sex Trade (video, 17 minutes, 2001)

The purpose of this video and booklet is to raise educator awareness regarding the sexual exploitation of children in the sex trade. The foundation is laid by defining current sex trade trends and by providing focal areas for the early detection of vulnerabilities in children and youth. A proactive approach is then explored looking at fostering resiliency in all young people. (City of Kamloops)

Track Laying for the Police Tracking Dog (video, 55 minutes, 1993)

Ed Frawley shows a new trainer how to lay tracks for training tracking dogs. Topics covered in this program include the following: how to walk a straight leg, double laying tracks, kicking corners, marking high to low vegetation, marking road crossings, marking fence crossings, and where to lay articles. (Leerburg Video Productions)

What’s Age Got To Do With It? (video, 14 minutes, 2003)

This video looks at the devastating effects of various forms of abuse upon older women in our society. These materials examine abuse within intimate or spousal relationships as well as abuse by adult children. (B.C./Yukon Society of Transition Houses)
Gladue (which interpreted s. 718.2(e) of the Criminal Code), a decision that could have far-reaching implications for the way in which Aboriginal offenders are sentenced by the courts. In his presentation, The Gladue Decision: Implications for the Sentencing of Aboriginal Offenders, A Lecture, Jonathan Rudin discusses the Gladue decision and the opportunity it provides to take some meaningful steps to counter the increasing reliance on incarceration as the response of choice of the courts to the sentencing of Aboriginal offenders. He emphasizes that sentencing judges must be presented with realistic assessments of offenders and of non-jail community options. He discusses the opportunity to start to make real changes to what the Court describes as a “crisis” in the criminal justice system in Canada. These changes however will require a concerted effort from a variety of sources to ensure that the promise of change is not lost. Jonathan Rudin’s lecture was presented on June 6, 2003 at the Justice Institute of British Columbia, sponsored by the Corrections & Community Justice Division and First Nations Programs & Services. The 54 minute recording of the lecture is available in 3 formats on disc: Quicktime, MPEG, and VCD (compatible with DVD player). (KE 7722 C75 R635 2003)

Rosen’s Emergency Medicine: Concepts and Clinical Practice has been a premier source of information in the field of emergency medicine since it was first published in 1983. The 5th edition contains 201 chapters, including 27 new ones. It contains completely updated, revised, and timely coverage on a full range of topics, including the latest advances in ischemic coronary syndromes, pediatric trauma, airway management, weapons of mass destruction, trauma in pregnancy, obstetric emergencies, the immunocompromised patient, child abuse, and much more. As one would expect, the 3-volume printed edition of this work is constantly referenced in the Library. The CD-ROM version delivers all of the information found in the three-volume print version, plus advanced search capabilities, links to Medline abstracts, 2,000 review questions that test knowledge of every aspect of the field, and access to the Rosen’s Emergency Medicine Web site, which provides updates, practice guidelines, meetings and residency program information, and more. And, of course the most practical advantage of the CD-ROM version (published by Mosby) is that it can be signed out for use away from the Library. (KE 7722 C75 R635 2003)

Weapons of Mass Destruction: Basic Awareness Training contains interactive training on two discs. This program was designed to provide a basic understanding of WMD, the threat of terrorism, and the appropriate response. It employs compressed video and PowerPoint slides to deliver clear, concise instruction in a student-driven interactive environment, and supports (though does not require) interfacing with Internet-based resources to enhance the learning experience. This training program covers: basic awareness, including discussion of the Federal Response and Terrorism Plans; chemical and physical properties of WMD agents; most common chemical and biological agents; incendiary/explosive agents; nuclear agents; and personal protective equipment and safety issues. This program was developed by Paratus Associates and is endorsed by the Department of Homeland Security, Office for Domestic Preparedness. (HV 6431 W425 2003)

In A Tree Story, Gerald Beranek takes the viewer through a behind the scenes look at what was happening while he was writing his book, The Fundamentals of General Tree Work (SD 538 B43 1996). The book is a detailed discussion of how to climb and cut trees, starting with knots and lines, tools and equipment, climbing trees, trimming and tree removal, the myriad details of tree falling, and ending with pruning and cleanup. It provides valuable information to aid search and rescue efforts in treed environments. The CD-ROM contains over 600 full color images following the author through his work, travels and adventures. Among the adventures, is a tour along the north coast of California, up the rivers and into the forests and to the tops of the giant redwoods. The book and the CD are both published by Beranek Publications. (SD 435 B473 2003)
