Would you like to be among the first to know what has just landed on the shelves of our Library? One way to do that is to check out the What's New section of the Library's webpage.

To do that, just go to www.jibc.bc.ca and select “Library.” If you click on What's New you'll see where to click to a list of all the items that we’ve recently added to our collection. It includes books, videos, CDs and all the other kinds of items that we catalogue.

Right away you’ll notice that this is more than just a plain list. What you’ll see is the result of a pre-programmed search which selects and displays the most recent additions to our Catalogue. So while you’re looking at the new items, you can also click on authors and subjects that you find interesting and discover even more relevant items in our collection. And if you get carried away and stray too far from the original list, you can easily return to it by clicking on INFO DESK and New Library Resources.

As soon as you view something that sparks your interest, you can request to borrow it. Simply phone, fax, or send an e-mail to us and your selection will be on its way to you as quickly as we can pull it from the shelf.

So if you’d like to be among the first to discover and borrow our newest acquisitions, visit our What’s New section and check them out!

BOOKS

Sexual Offences against Children and the Criminal Process by Wendy Harvey and Paulah Dauns. Toronto, Ont.: Butterworths. (KE 8926 H278 2001)

AUDIOTAPE

Interviewing Immigrant Children & Families about Child Maltreatment (audiocassette, 60 minutes)
Lisa Aronson Fontes explains to listeners how to help immigrant children speak as comfortably and accurately as possible about experiences of child abuse and neglect. She also covers how to build rapport with children and families of diverse backgrounds, and how to conduct interviews with children who do not speak English. (Sage Publications, Inc.) (HV 8079 C46 F657 2000)
BOOKS

VIDEOS

This program addresses the need for planning for a mass fatality incident. It covers the following concerns: how to deal with the bodies, the families, and the emotions of the responders; and what resources are available to assist. (American Heat, Inc.)

V1597 EMS Response to Multiple Casualty I (video, 116 minutes, 1996)
This video covers ten different MCI incidents: a chlorine fire, building collapse, a transit bus accident, a commuter plane crash, a propane explosion, rocket fuel explosion, a Delta plane crash, a tornado, a school bus crash and the crash of Flight 225. (Lockert-Jackson & Associates)

V2573 Mass Casualty Incidents: Part One (video, 94 minutes, 2001)
This program addresses the emergency medical response to mass casualty incidents. It covers from the pre-planning stage through operations, recovery and the post-incident period. The Pulse Plus segment looks at common challenges of an MCI. (Primedia Workplace Learning)

V2596 Mass Casualty Incidents: Part Two (video, 81 minutes, 2002)
Part two begins with a discussion of stress and the EMS provider. It also covers common problems encountered on the MCI scene and discusses strategies for reducing them. Disaster Mortuary Operational Response Teams (DMORT teams) are also discussed. The Pulse Plus segment looks at incident management of mass casualty incidents and multiple patient incidents. (Primedia Workplace Learning)
V2686  American Heat, July 2002:  Driving Dangers — Tanker/Tender Rollovers  
(video, 60 minutes, 2002) 
Before firefighters can respond to an emergency, they have to arrive safely at the scene of the 
incident. This program examines the potential dangers of operating vehicles that are transporting 
large amounts of water to the scene. The Back to Basics segment is part one of firefighter safety.  
(American Heat, Inc.)

V2670  American Heat, June 2002:  Adapt and Overcome — Tampa Style  
(video, 61 minutes, 2002) 
This program looks at how Tampa Fire Rescue has adapted equipment and knowledge to overcome 
specific challenges. These incidents include a small plane crash into a skyscraper and an overturned 
diesel tanker under a freeway overpass. This program discusses strategic goals every fireground 
officer must remember as well as non-traditional tactics that may not have been considered. The 
additional training segment is a Hazmat refresher course on U.N. classification system review.  
(American Heat, Inc.)

V2630  Crisis at the Crossroads:  An Emergency Response to the Biggar Train Derailment  
(video, 14 minutes, 1998) 
This video discusses the September 3, 1977 VIA passenger train derailment near Biggar, 
Saskatchewan. At 1:50 a.m. the 19 passenger car train with 200 passengers on board derailed. The 
first hand accounts of responders are discussed on the video with emphasis on the five key areas for 
effective emergency management during this incident.  (YMVA Productions)

V2545  Diet & Health:  Cardiovascular Disease  (video, 28 minutes, 1996) 
Defines the diseases that affect the heart and circulatory system: arteriosclerosis/atherosclerosis 
(hardening of the arteries), heart attacks, high blood pressure (hypertension). Lists the risk factors 
for cardiovascular disease (CVD): genetics, obesity, hypertension, high cholesterol, smoking and 
lack of exercise. Discusses the factors that reduce these risks: daily aerobic exercise (30-40 min.), 
fat intake reduction, vitamin supplementation. Cites recommended ratio for cholesterol level (150 
LDL/40 HDL), and for blood pressure (120 systolic/80 dystolic). Explains hypertension and fatty 
plaque build-up.  (Magic Lantern Communications)

V2544  Diet & Health:  Diabetes  (video, 29 minutes, 1996) 
Defines the role of insulin: stimulates the liver and muscle cells to remove glucose from the blood 
when blood glucose concentration gets too high. Differentiates between type I and type II diabetes: 
with type I an absolute insulin deficiency exists requiring insulin therapy; type II is less severe but 
more difficult to diagnose. Profiles the high risk diabetic: female, obese, family history and over 
forty; describes the symptoms (weight loss, frequent urination, constant thirst); and explains 
treatments/therapies (insulin therapy, diet modification, exercise, surgical intervention).  (Magic 
Lantern Communications)

V2506  Extreme Sports  (video, 99 minutes, 2001) 
This Emergency Medical Update program examines extreme sports based in or around water, air 
and on land. It looks at popular sports, common injuries associated with them, factors that may 
increase injuries, associated equipment, and prehospital considerations and treatment. The Pulse 
Plus segment examines the role of the incident safety officer at extreme sporting events.  (Primedia 
Workplace Learning)

<tbody>
<tr>
<td>V2617</td>
<td>Hostage Team Selection, Command Post Guidelines</td>
<td>Video, 28 minutes, 2002</td>
<td>This program looks at how specialized hostage response teams are necessary whenever there is a hostage crisis in a correctional facility and how these teams are developed. There is a discussion of each of the positions on the hostage team and what the responsibilities are of each member of the team. Also discussed is how the team interacts with the command post, what the duties are of each, command post guidelines, and how to deal with the media during the crisis. (Lockup USA)</td>
</tr>
<tr>
<td>V2642</td>
<td>The Mission School Syndrome</td>
<td>Video, 66 minutes, 1993</td>
<td>This sequel to the 1988 program of the same title describes the role of mission schools in the education of native children from the 1920s to the 1980s, and addresses the long-term impact on native communities. It looks at the efforts being made around the Yukon by native individuals and communities to repair some of the damage done by the schools and to turn their lives around. (Filmwest Associates)</td>
</tr>
<tr>
<td>V2648</td>
<td>Pump Operations</td>
<td>Video, 22 minutes, 2000</td>
<td>This program shows the student how to engage and operate safely a pump and how to handle minor emergencies that may occur during operations. (Primedia Workplace Learning)</td>
</tr>
<tr>
<td>V2619</td>
<td>Respiratory Emergencies</td>
<td>Video, 69 minutes, 2001</td>
<td>The first segment examines pulmonary anatomy and physiology and the process of respiration. Segment two looks at pulmonary embolism (PE) including sources, predisposing risk factors, and clinical presentation and complications. The segment on pneumonia describes its pathophysiology, risk factors, common modes of transmission, types of pneumonia and prehospital treatment. The Pulse Plus segment examines the “crashing asthmatic patient,” including pathophysiology of asthma, prehospital assessment and treatment of severe attacks. (Primedia Workplace Learning)</td>
</tr>
<tr>
<td>V2654</td>
<td>St. Petersburg Riots; Crowd Control</td>
<td>Video, 39 minutes, 1997</td>
<td>This program shows dramatic and extensive video of riots which engulfed St. Petersburg, Florida after an African-American motorist tried to run over a Caucasian officer who then shot the motorist. Police explain their tactics, strategy and response. Important from the stand-point of agency preparedness for overwhelming riot, disaster or cataclysmic situation. (In the Line Of Duty)</td>
</tr>
<tr>
<td>V2540</td>
<td>Special Operations</td>
<td>Video, 104 minutes, 2001</td>
<td>This Emergency Medical Update program begins with an examination of confined space rescue. A segment on tactical emergency medical support (TEMS) addresses EMS in law enforcement tactical operations. Segment three covers the hazards and tactics involved with trench rescue. A segment on rope rescue addresses technical rope rescue standards, equipment and safety considerations, and patient assessment and packaging. The Pulse Plus segment discusses “special operations” planning for the 2002 Winter Olympics in Salt Lake City. (Primedia Workplace Learning)</td>
</tr>
<tr>
<td>V2631</td>
<td>Stolen Identity: Crime of the Millennium</td>
<td>Video, 28 minutes, 1999</td>
<td>This program asserts that identity theft is the cybercrime of the millennium. It identifies and explains the means by which a person’s identity can be stolen: credit repair, shoulder surfing, account takeover, dumpster diving, social engineering or a dishonest employee. It also explains the reasons for this identity theft: avoid paying child support, obtain credit, avoid criminal prosecution. It lists precautionary actions to take: shred all personal documents, check your credit report. It also offers suggestions on how to regain your identity. (Canadian Learning Company)</td>

Substance Misuse Videos

Substance use and misuse issues affect individuals, families, communities, and society as a whole. The Library now has several videos which explore many dimensions of this complex subject area.

Breaking of the Bottle (V2538) presents a substance misuse prevention program designed for the Indo-Canadian community. It creates an awareness of substance abuse problems and encourages parents to take an active role in preventing alcohol and other drug use among their children. This 25 minute video was produced by Alcohol-Drug Education Services in 1990.

Donna’s Story (V2579) is a 50 minute video produced by the National Film Board of Canada in 2001. This intimate portrait of a fiercely determined survivor profiles Donna Gamble, a Cree woman who left behind a bleak existence on the streets to become a powerful voice counselling Aboriginal adults and youth about abuse and addiction. Donna was raised in foster homes, addicted to drugs and caught up in prostitution by the age of 13. The camera unravels her exhilarating and tumultuous journey: her motivation to turn her life around, her work to keep others off the streets and the renewal of personal relationships with her family and children. With courage and candor, Donna also reveals an ongoing struggle with addiction, exposing the rage and pain of abuse that can haunt even the strongest person.

Our Pill Epidemic (V2568) examines how prescription drug addiction to benzodiazepines (tranquilizers and sleeping pills) can be far more debilitating than addiction to heroin or cocaine. This documentary investigates the roles of doctors, pharmaceutical companies, governments, pharmacists and consumers. This 46 minute video was produced by Documentary Productions in 1997 and is distributed by Magic Lantern Communications Ltd.

Using expert interviews, laboratory footage, and dramatizations, Substance Misuse (V2561) examines the most commonly misused substances, explaining the effects of each and the problems it can cause. It includes: stimulants (amphetamines, caffeine, cocaine, nicotine, MDMA (methylene dioxy xymethamphetamine or "ecstasy"); depressants (alcohol, barbiturates, solvents, benzodiazepines); hallucinogens (cannabis, lysergic acid diethylamide or “LSD”, “magic” mushrooms); and opiates (morphine, heroin). This 28 minute video was produced in 1993 and is distributed to B.C. post-secondary educational institutions by B.C. Learning Connection.

Where Angels Weep: A Film about Teenagers and Heroin (V2599) takes a look at drug use among teenagers, and follows the downward spiral of heroin addiction from the suburbs to the misery and horror of life on the streets in the big city. Addicts and recovered addicts tell their stories themselves. The problem is shown in graphic detail with paramedics working on an overdose victim, a hospital emergency room, and a funeral, as well as scenes of an addict’s arms and legs riddled with punctures, the “tracks” of intravenous drug use. This 48 minute video was produced by Pacific Television & Film in 2000.

The Wrath of the Dragon (V2622) is a 12 minute program which shows drug addicts talking about their addiction, prostitutes speaking about the misery of their daily lives, and high school students talking about their perceptions and challenges. The program brings home the message that drug addiction, and the related violence at home and in the streets, is not limited to the downtown areas of big cities, but is also a growing problem in the suburbs and small communities. This video was produced by Pacific Television & Film in 1999.

To borrow a copy of any of these videos, please call Rob at 604-528-5598 or send him a fax via 604-528-5593. Or if you prefer, send an e-mail message to rbooft@jibc.bc.ca or library@jibc.bc.ca
