INFLUENZA - DVDs

- D155 **Black Dawn: The Next Pandemic** (DVD, 52 minutes)
 A docudrama about a hypothetical pandemic of avian influenza (H5N1), from initial outbreak through mass transmission and global spread. Although fictional, the scenario is very much grounded in scientific fact and inspired by the research and pandemic preparedness efforts of the world's leading thinkers on the subject. (CBC Educational Sales) (PN 1995.9 D55 B423 2006)

- D713 **The Black Spot** (DVD, 3 minutes)
 Raises awareness about how germs, and in particular infectious respiratory diseases such as an influenza pandemic are spread. (Public Health Ottawa)
 (RC 115 B427 2006 D713)

- D714 **Business Not as Usual: Preparing for a Pandemic Flu** (DVD, 20 minutes)
 This program is designed to assist pandemic flu planning efforts for business, government agencies and community-based organizations. It covers the following: basic facts about pandemic flu; social distancing; creating a plan and its benefits; and recovering from a pandemic. (Public Health Seattle & King County)
 (RA 644 I6 B857 2007)

- D707 **The Coming Pandemic** (DVD, 42 minutes)
 “It’s the disease the world has been fearing. No country is prepared. Scientists now believe it’s only a matter of time before another major epidemic kills tens of millions. The most likely source is a mutation of the influenza virus, now killing birds and humans across Asia. But what would happen if such a virus struck? Can anything be done to prepare?” -- Container. (McNabb Connolly) (RA 644 I6 C66 2005)
- D706 **Pandemic Flu: Taking Action** (DVD, 13 minutes)
 This video describes how an influenza pandemic could affect you and your family. After viewing, you should understand what pandemic flu is, how to prepare for an outbreak, and how to prevent spreading the virus. (U.S. Government Printing Office) (RA 644 I6 P264 2007)
- D216 **Pandemic Influenza: Prepare for the Worst, Hope for the Best: A Health Guide for Pandemic Preparedness** (DVD, 33 minutes)
 Is another pandemic of influenza coming? Can anything be done to prepare? This video brings together experts from across Canada to answer these questions and to provide basic information about influenza, the threat of a pandemic and how we can all work together now to prepare. (BC Centre for Disease Control) (RA 644 I6 P265 2006)
- D720 **Pandemic Influenza: The Role of Healthcare Workers: Part 1: History and Virology of Pandemic Influenza** (DVD, 11 minutes)
 Part one covers the difference between seasonal flu and pandemic flu, how new flu viruses develop, and how flu viruses are spread. It gives health-care workers an understanding of the history and virology of pandemic influenza. It describes how influenza viruses invade and attack normal body cells as well as how vaccines work and why they have to change every year. (Kinetic Video) (RA 644 I6 P36 2006 pt.1)
- D721 **Pandemic Influenza: The Role of Healthcare Workers: Part 2: Recognizing Influenza, Treatments, and Patient Education** (DVD, 15 minutes)
 Part two provides an understanding of the clinical signs and symptoms of influenza and how they differ from seasonal flu. It looks at treatments for influenza which are largely focused on giving the body’s immune system the time to launch its own fight against the virus. It also addresses patient education measures aimed at helping patients protect themselves and their families and slow the spread of a pandemic. (Kinetic Video) (RA 644 I6 P36 2006 pt.2)
- D722 **Pandemic Influenza: The Role of Healthcare Workers: Part 3: Infection control and Public Health Measures** (DVD, 11 minutes)
 Part three describes infection control practices for clinical settings in the event of a flu pandemic and public health measures that might be taken in the community. (Kinetic Video) (RA 644 I6 P36 2006 pt.3)

- D708 **Workplace Strategies for Pandemic Preparedness** (DVD, 15 minutes)
 This program is designed to help business, industry and government facilities prepare for and mitigate the almost inevitable impacts of an influenza pandemic. To sustain operational continuity through the onset of a global pandemic, employees must understand not only the health issues, but also the possible disruptions of essential services and of the organization's workflow. They must be prepared to execute the strategies and practices that will minimize the impacts on production and human welfare. This program focuses on the five topics identified in the Homeland Security Council's National Strategy for Pandemic Influenza: Implementation Plan. (Emergency Film Group) (RA 644 I6 W675 2007)
