- D1326 **A Judge's Perspective** (DVD, 56 minutes)
Judge Cunliffe Barnett first heard about fetal alcohol syndrome over 20 years ago when he attended an FAS workshop presented by Dr. David F. Smith. Shortly after, he was the presiding judge in a child protection hearing of a young boy with severe special needs who had been apprehended from alcoholic parents. With new understanding about the serious effects of alcohol use during pregnancy he requested an assessment for FAS for this youth. In this video Judge Barnett relates the story of Geoffrey who grew up to become both victim and offender. Through several case examples, Judge Barnett portrays the stories of people with FAS in the legal system and how their disability was all too often unrecognised and misunderstood by judges, lawyers, social workers and others. (Asante Centre for Fetal Alcohol Syndrome) (RG 629 F45 J836 2004)
- D1327 **Mistakes I Have Made** (DVD, 28 minutes)
In this video, David Boulding admits to his mistakes as legal counsel defending clients with FASD (fetal alcohol spectrum disorder). However, his intention is not just to confess, but also to turn his experiences into a lesson for those in the legal profession who may one day find themselves working with these special needs clients. Some of the topics discussed include: the implications of FASD in the Canadian Charter of Rights and Freedoms; the concept of "not criminally responsible by reason of a mental disorder"; the tendency for clients with FASD to be impressionable, suggestible and easily misled; examples of assumptions that may seem reasonable for a typical client, but would not be appropriate for a client with FASD; and the importance of obtaining an FASD assessment. (Asante Centre for Fetal Alcohol Syndrome) (RG 629 F45 M585 2004)
