If you are ready to make a difference, and focused on a career supporting the health and safety of others, then Justice Institute of British Columbia (JIBC) is where you will gain the relevant skills to realize your passion.

JIBC is Canada's leading public safety educator, developing dynamic justice and public safety professionals through its exceptional applied education, training and research. Founded in 1978 as a public post-secondary institution with a provincial mandate, JIBC offers an internationally recognized education that leads to certificates, diplomas, bachelor's degrees and graduate certificates.

Our education prepares professionals with the knowledge, skills and competencies to excel at every stage of their chosen fields contributing to safer communities and a more just society.

Our graduates serve with professionalism and compassion. They are both younger people starting their careers and experienced professionals looking to advance their skills and experience.

At JIBC, expect to be challenged. Expect hands-on learning where you will practice what you've learned through immersive training simulations and scenarios. Expect to gain insights from instructors who are seasoned professionals, many who are active leaders in their fields.

If you are committed and ready to work hard, you're going to learn the theory and the technical skills. You're going to build on your teamwork and communication skills. When you're done, you'll feel more competent and confident.

You'll be ready to make a difference.

# ADVANCED EDUCATIONAL TECHNOLOGY & FACILITIES

## ABOUT JIBC

Training simulations are at the heart of JIBC's education and training. Students have access to a wide range of advanced tools, unique facilities and leading-edge software as a part of the education they receive.

In the JIBC Paramedic Academy, for example, students use advanced adult patient simulators that have internal robotics that mimic real patient symptoms. With these simulators, students have the opportunity to safely practice procedures and hone their assessment skills for a wide variety of respiratory, cardiovascular and neurological conditions.

In the Fire & Safety Division, aspiring and existing firefighters have access to training facilities to hone their firefighting skills. Among the unique simulation training props are a three-story concrete burn

building that is regularly set ablaze for firefighters to practice real-life conditions; a ship's steel superstructure and hold to simulate marine and confined-space firefighting; an airplane crash site; and an 11-car train derailment prop used by firefighters across Canada to learn how to respond to railway disasters, fires and chemical spills.

JIBC is also a leader in computer-assisted simulation training. It has developed Praxis, an award-winning web-based system that gives students and professionals an immersive, interactive, first-person perspective of an unfolding scenario or event. CEOs have used it to test their business continuity plans. Emergency management professionals have gone through scenarios using Praxis to improve their processes and procedures. And JIBC students also have the opportunity to use Praxis and put their skills to the test in specialized courses.

# LEADING-EDGE LEARNING AT JIBC

PUBLIC AND COMMUNITY SAFETY PROFESSIONALS DEAL WITH COMPLEX CHALLENGES. CRIME INCREASINGLY CROSSES BORDERS AND THE SCALE OF NATURAL AND HUMAN-CAUSED DISASTERS CONTINUES TO GROW. JIBC FULFILLS ITS MANDATE TO PREPARE STUDENTS FOR THESE CHALLENGES BY EMBRACING THE LATEST RESEARCH AND TECHNOLOGY TO PROVIDE EFFECTIVE PUBLIC AND COMMUNITY SAFETY EDUCATION AND TRAINING.

---

## TECHNOLOGY ENABLED LEARNING

---

JIBC's award-winning Centre for Teaching, Learning and Innovation (CTLI) has supported the development of a number of online courses, program-specific mobile apps, and a blended-learning format for courses that incorporate online learning and traditional classroom instruction. CTLI also leads a number of innovation projects, which currently includes a mobile learning initiative and an open textbook initiative.

The expanded range of course formats and learning technology innovations have enabled students from many parts of the world to receive an internationally recognized education. JIBC students have benefited from the ability to learn from highly experienced instructors working in the field in B.C. or anywhere else in Canada.

Mariano Perini is deputy fire chief for Whitby, Ontario and a 2014 graduate of the Bachelor of Public Safety Administration program. He was able to complete his degree because it could be completed entirely online.

"The big thing was the accessibility, to be able to take the courses online, on weekends, evenings, whatever the case may be," said Perini. "That was really attractive to me, and professors and program managers were just a phone call away. They were all very accessible."

JIBC is also a leader in the use and development of free and open textbooks. In the 2014-2015 academic year, more

than 425 students in liberal studies and specific public safety courses collectively saved more than \$50,000 in textbook costs through the initiative.

These open textbooks are also benefiting public safety professionals in the field. JIBC's Fire & Safety Division has launched a Hazardous Materials iBook, which is a free, downloadable resource for Apple iPad devices. Designed to be used with JIBC's Hazardous Materials iOS app, the book covers competencies required by firefighters to meet National Fire Protection Association (NFPA) standards.

In the field of law enforcement, JIBC has developed an open textbook in applied ethics with funding from BCcampus. Developed for JIBC's Law Enforcement Studies Diploma program, the new textbook will be the first open textbook in criminology, one of the 40 most highly enrolled first and second-year subject areas in B.C.

"In addition to providing updates to existing textbooks, we are contributing to many disciplines for which there are no open textbooks," said Dr. Tannis Morgan, Associate Dean of the Centre for Teaching, Learning and Innovation. "Because of our unique mandate, we can contribute in a different way, in addition to contributing to the broader post-secondary sector."

# GREAT INSTRUCTORS

JIBC IS HOME BASE FOR MANY OF THE MOST EXPERIENCED INSTRUCTORS IN PUBLIC SAFETY. THEY ARE ON THE FRONT LINES OF THEIR PROFESSION, TEACHING REAL-WORLD SCENARIOS AND TAKING A HANDS-ON APPROACH TO HELPING STUDENTS. MEET SIX OF THEM:

## **TOM LEWIS:** GOING THE DISTANCE IN EMERGENCY MANAGEMENT TRAINING

Tom Lewis' energy is undeniable. His enthusiasm, intensity, and passion for excellence have made him an internationally respected mentor in the field of Emergency Management and one of JIBC's Instructors of the Year.

Tom retired in 2006 as Surrey's Deputy Fire Chief and City Emergency Coordinator. But his retirement didn't last long. Less than 100 hours after leaving Surrey's fire department, he co-facilitated his first course at JIBC.

Since then, he has facilitated emergency management courses in B.C., across Canada and around the world. He's taught everyone from oil executives and First Nations leaders, to key stakeholders preparing for the Vancouver 2010 Winter Olympic and Paralympic Games, and the G8/G20 summits in Ontario.

Pete Learoyd, Program Director, Emergency Management Division at JIBC, said, "He possesses an innate ability to bring the training to life."

## **BRIAN HUTCHINSON:** GAINING A GLOBAL PERSPECTIVE IN PUBLIC SAFETY

Brian Hutchinson can prepare you to make a difference as a public safety professional. Currently a Captain and Public Information Officer for Vancouver Fire & Rescue Services (VFRS), he has served in the Disaster and Emergency Planning Section of the Special Operations Division of VFRS, after serving 13 years as a frontline firefighter.

Brian's area of expertise is in disaster and emergency management. At JIBC, he has taught a number of courses. He's also been able to share lessons from his personal and professional focus on international development. He has spent several years working with developing nations to enhance their capacity and capabilities to serve and protect their communities from emergencies and catastrophes.

"Opportunities abound at JIBC for those who seek constant challenge and professional development," he said. "The saying that success is a combination of preparation and opportunity rings true. I have been able to share this experience with many others."

## **SHERRI CALDER:** IMPARTING VITAL CONFLICT RESOLUTION SKILLS

When it comes to teaching conflict resolution skills, Sherri Calder doesn't just teach the theory; she's always looking for new ways to make the material relevant to students.

"I talk about the concepts around conflict resolution, but I like to bring up real-world examples that people can relate to," she said. "I also challenge the students I'm working with to actually apply what they have learned. I invite them to try things and report back."

This applied educational approach has proven to make a difference in the personal and professional lives of the people she has taught. Whether she is teaching a group of employees and managers or students completing JIBC's Law Enforcement Studies Diploma, the feedback is similar.

"Many students have told me they speak differently to their partners, family members, work colleagues and supervisors. It's very applicable and bringing different perspectives and experiences does ground the material even more."

## **ROD GILBERT:** TRAINING THE NEXT GENERATION OF PARAMEDICS

If you train at JIBC to become a paramedic, you'll be benefiting from Rod Gilbert's reputation and decades of experience.

Rod teaches in the Primary Care Paramedic program at JIBC and has also taught the Emergency Medical Responder course. Both courses are extremely demanding, not just for the student, but also for the instructor.

"In order to teach effectively, you have to know a great deal of information about many subjects," he notes.

That's where Rod's experience becomes invaluable. He has been a paramedic for more than 25 years, spending much of his career as a Medical Technician for the Canadian Armed Forces.

And he's still active in the profession. In addition to being a JIBC instructor, he also works as a paramedic in the Arctic and serves as a health and safety officer for a company that specializes in remediation work.

## **JENNIFER KEYES:** BRINGING THE LAW TO LIFE FOR PROSPECTIVE POLICE RECRUITS

Vancouver Police Department Sergeant Jennifer Keyes brings a passion and energy to Canadian Criminal Law. A lawyer by training, she was initially in private practice and then a Federal Crown Prosecutor for the Public Prosecution Service of Canada before she decided to switch professions and join the VPD in 1999.

Currently VPD's Liaison with Ecomm-911, Sgt. Keyes also serves as a director for the Vancouver Police Union and as an assessor of police applicants in addition to being a JIBC instructor.

Students invariably stay engaged in her course listening to her experiences and real-life stories that highlight the key role police officers have in the legal system, and the essential skills officers need.

Whether it's through stories, questions, or debates on a current issue, Sgt. Keyes helps students glimpse the legal nuances they will have to deal with as the next generation of police officers.

## **LAURIE PEARCE:** AT THE FOREFRONT OF IMPROVING CRITICAL INCIDENT RESPONSE

Dr. Laurie Pearce is one of the key instructors in JIBC's Critical Incident Stress Management certificate, which provides the knowledge and skills needed by front line staff and managers to protect the emotional health and safety of those involved in a traumatic event.

Specializing in disaster management and traumatic stress, Laurie is on the leading edge in her field. With her experience responding to local and international disasters, she continues to conduct research about disaster response in Canada and around the world.

She is JIBC's first Research Chair and one of the co-lead researchers at JIBC's Simulation and Training Exercise Collaboratory (SIMTEC) project, which is a multi-year research project looking at the often unrecognized psychological and social dimensions of disasters and hazardous events. The results from SIMTEC's research has gained international recognition and is informing the next generation of training for first responders in Canada.

# BACHELOR OF LAW ENFORCEMENT STUDIES

# Be the one

*keeping communities safe*

If you have what it takes for a career in law enforcement and security, JIBC has what it takes to get you ready.

With its team of highly experienced officers and instructors, JIBC is the place where prospective and existing law enforcement personnel learn the latest skills to execute their complex, challenging and sometimes dangerous role in serving the public and protecting property.

The **Law Enforcement Studies Diploma (LESD)** is a two-year program that gives you the theoretical background, applied skills and specialized knowledge required to become a superior candidate in a range of investigation and law enforcement occupations.

As part of the LESD program, students earn common law enforcement

certifications including Incident Command 100 certification; Canadian Firearms Safety Course certification; and Basic Security Training (BST) certification.

The LESD program was instrumental for students like Mathew Taylor pursuing a career in law enforcement. A recent LESD graduate, Taylor was hired as a constable by the Delta Police Department and completed his Police Academy training in 2014.

“The LESD program helped tremendously,” he said. “It definitely helped me in the recruiting process and I felt it gave me the platform I needed to succeed in the Police Academy. Through the LESD program, I was exposed to law, use of force, firearms, driver training and conflict resolution tactics – all of which you spend countless hours on while training at the Academy.”

JIBC also offers the **Bachelor of Law Enforcement Studies (BLES)**, which provides students with the in-depth knowledge and expanded skills for an exciting career in a wide range of law enforcement, public safety, regulatory and compliance professions.

As part of the degree program, students develop the leadership skills, along with vital critical thinking and ethical decision-making skills. They also gain an in-depth knowledge of the Canadian criminal justice system, and experience with intelligence analysis and forensic evidence investigation.

[JIBC.ca/lesd](http://JIBC.ca/lesd)

[JIBC.ca/bles](http://JIBC.ca/bles)

## JIBC WELCOMES FIRST CLASS OF THE NEW DEGREE PROGRAM

In September 2014, JIBC welcomed the first cohort of students in its new Bachelor of Law Enforcement Studies (BLES) program.

A unique program in Canada, BLES was developed to address the growing complexity of law enforcement and provide the latest knowledge, skills and competencies to help students become sought-after candidates in the highly competitive recruitment process.

The BLES program expands upon JIBC’s two-year Law Enforcement Studies Diploma (LESD) by providing students with the opportunity to deepen their theoretical knowledge and applied understanding of criminal justice and law enforcement.

The program is open to LESD graduates and students from other post-secondary institutions with criminal justice or criminology diplomas. They can continue their education in the third year of the BLES program where they develop their leadership, critical thinking and ethical decision-making skills. They also gain a background in business, human resources, research and labour law.

Nineteen-year-old Derek Hohmann, who hails from B.C.’s Okanagan region, is one of the students in Cohort 1 of the BLES program.

“I’ve seen my schedule for this semester and it sounds like a blast. I can’t wait to see what we have in store.”

A recent LESD graduate, Hohmann became interested in a career in law enforcement after meeting and becoming good acquaintances with an RCMP officer who helped him in high school.

“Just the way he helped me through that stage in my life, it seemed like being a police officer would be a very rewarding experience. Since then, I can’t see myself doing anything else, really.”

Robyn Walden, 21, from North Vancouver, is looking forward to continuing her studies after graduating from the LESD program in June. Having gained an interest in pursuing a law enforcement career after completing the RCMP Youth Academy in 2011, she is looking forward to the opportunity to gain additional skills and experience at JIBC.

“I like coming here and I’m looking forward to coming to school this year. The instructors have so much knowledge and it’s applied. The courses in the BLES program sound interesting and are things I want to learn about.”

For Ramandeep Randhawa, 21, completing the BLES program is also an important step to pursuing a rewarding career of service as a police officer.

“I know life experience is one of the biggest things they look for, but education is also important and having the critical thinking skills to perform your duties as a police officer. I want to make myself stand out, so that’s one of the reasons why I want to complete the degree.”

[JIBC.ca/lesd](http://JIBC.ca/lesd)

# Be the one

*saving lives*

If you have a passion to make a difference as a first responder or health care professional, JIBC's Health Sciences Division is where you will receive some of the best education and training available in B.C.

The Paramedic Academy in JIBC's Health Sciences Division is home to several levels of medical responder and paramedic training and education programs. The **First Responder** course is for anyone who is the first to respond to an emergency. This course is for those that need effective training in first response including firefighters, police officers, safety and security professionals at sporting events, and staff in recreational facilities and special care centres. JIBC's **Emergency Medical Responder (EMR)** course is the entry level course for responders who are interested in a career in Emergency Medical Services, as an industrial medic, ski patroller, or other frontline medical responder role.

If you want to advance your frontline responder skills, the JIBC Health Sciences Division is at the forefront of advancements

in health sciences education by providing experiential learning programs and continuing education for paramedics, physicians, nurses and allied health professionals. Advanced programming includes the **Primary Care Paramedic (PCP)** certificate, the **Diploma in Health Sciences – EMS**, and the **Advanced Care Paramedic (ACP)** Advanced Diploma program. JIBC's PCP and ACP programs are the only ones in British Columbia that are accredited by the Canadian Medical Association.

Today, paramedics can be found in settings beyond the traditional ambulance environment. They assist physicians and nurses in emergency rooms; support patients with in-home care; work in industry; and provide public health education in the community. Their extensive knowledge and clinical background has enabled many paramedics to move on to medical schools, nursing programs and other health fields.

JIBC's Health Sciences Division also offers educational programming to a variety of allied health professionals. Programming

ranges from short courses for professional development and continuing competence, to the **Community Care Licensing Officer** Advanced Specialty Certificate, that trains the professionals who assess and monitor licensed care facilities in B.C., like daycares, care homes, and group homes.

JIBC programs are offered in various communities throughout B.C., in our campuses at New Westminster, Kelowna, Victoria, and Chilliwack, and community based delivery in communities such as Kamloops, Port McNeill and Port Alberni, Prince George, and Vanderhoof.

As the population ages, the need for pre-hospital, emergency health care will only grow. JIBC is where you will gain the skills, competence and experience to make a difference, save lives, and keep our communities safe.

[JIBC.ca/hsd](http://JIBC.ca/hsd)

## MULTI-AGENCY SIMULATION

### SIMULATING DISASTER FOR SAFER COMMUNITIES

Police are on site in a building where multiple individuals have been injured. Some victims are bleeding while others are unresponsive. Paramedics are assessing and transporting patients in urgent need of care to the nearest medical facility. Meanwhile, officers are on high alert as suspects may still be on the scene.

This could describe a situation that emergency personnel had to deal with in the real world. But it was the training scenario that paramedic and law enforcement students at JIBC participated in last October.

The exercise was the largest multi-agency training simulation held at the New Westminster Campus to date. It involved staff from the Provincial Health Services Authority's Mobile Medical Unit (MMU); police officers from a number of municipal police departments in the Lower Mainland; resident physicians from the UBC Faculty of Medicine; and students from Douglas College's Bachelor of Science in Nursing program and psychiatric nursing program.

The 90-minute simulations took place in temporary field hospital facilities provided by the MMU and inside the Dr. Donald B. Rix Public Safety Simulation Building.

"Simulations are really the heart of the applied public safety education and training that students receive at JIBC," said Dr. Laureen Styles, JIBC's Vice-President, Academic. "These training simulations provide students the opportunity to apply their knowledge and skills in a safe learning environment. This is an exceptional learning opportunity as an inter-professional event. Our goal is to make the portrayal of an emergency or crisis situation as real as possible; this sometimes means heightened noise and activity that goes along with such simulations on our campus."

"We are pleased to be part of such a significant training event involving the full range of health care students," said Peter Hennecke, MMU's Clinical Operations Director. "In addition to being ready to be called out in an emergency, the Mobile Medical Unit is available for customized medical education opportunities for students, health care organizations and the general public across the province."

# FIRE FIGHTING TECHNOLOGIES CERTIFICATE

## PREPARING THE NEXT GENERATION OF FIREFIGHTERS

# Be the one

## *saving lives*

If you want to be on the front line, saving lives, fighting fires, and making a difference in your community, JIBC is the starting point for an exciting and meaningful firefighting career.

The **Fire & Safety Division (FSD)** is where fire and rescue personnel from fire departments all over B.C. come to get their training and education. JIBC offers a comprehensive range of programs that include basic to advanced firefighting training, specialized fire officer training and certificate and diploma programs.

As emergency response becomes increasingly complex, JIBC applies the latest research and techniques in its training programs at its main New Westminster

Campus and its campus in Maple Ridge, which is designed specifically for hands-on firefighting training.

Among the unique firefighting training props at the Maple Ridge Campus is a three-storey concrete building that's regularly set ablaze for firefighters to practice in real-life conditions. There are also other firefighting props ranging from a ship's superstructure to an 11-car train derailment prop used to train firefighters from across Canada to respond to railway disasters, fires and chemical spills.

JIBC is also where fire departments from around the world turn for internationally recognized training program for firefighting recruits. Many of FSD's courses are nationally

and internationally accredited giving future firefighters the opportunity to work in many jurisdictions outside of B.C.

Whether it's finding new ways to decontaminate a site of hazardous materials, dealing with a train derailment fire, or rescuing someone from a ship, or burning building, JIBC is B.C.'s centre of excellence in fire and rescue training.

[JIBC.ca/fire](http://JIBC.ca/fire)

JIBC's Fire Fighting Technologies Certificate (FFTC) provides pre-employment training to prepare prospective firefighter recruits with the knowledge, skills and industry qualifications to be sought-after candidates in the competitive recruitment process.

The FFTC program meets the evolving needs of students and the modern fire service by preparing fire service candidates with all the necessary skills to meet National Fire Protection Association (NFPA) standards outlined in NFPA 1001 Standard for Fire Fighter Professional Qualifications, 2013 edition.

It also takes advantage of the latest advances in technology to provide a more flexible schedule for working professionals. The 30-credit program is offered in a blended format that combines online learning and face-to-face training. Students take their liberal studies and firefighting knowledge courses online at their own pace. Once those are complete, they receive their practical, hands-on training over seven weeks at JIBC's Maple Ridge Campus, one of Western Canada's most extensive firefighting training facilities.

Adam Iwama, 33, is a recent graduate of JIBC's career firefighter pre-employment program who now serves as a firefighter for the Abbotsford Fire Rescue Service.

"JIBC's pre-employment program boasts a few incomparable components that put me ahead of much of the competition in the job market," he said. "Spending several weeks living and breathing fire instruction and application gave me the hands-on experience recruiters recognized and valued. Also, being instructed by lieutenants, captains and chiefs of Lower Mainland fire departments provided first-hand knowledge of the dedication it would take to serve. Exposure to so many fire departments while I was training allowed me to forge

important and meaningful relationships that would be revisited several times between my graduation and eventual entry into the service."

For Iwama, one of the most meaningful lessons he learned in the program is the importance of always being at your best as a firefighter.

"One of my training officers shared with us exactly what it meant for us to dedicate ourselves wholeheartedly to learning and practicing our skillset every single opportunity we have. As he put it, when that call comes in and someone is having their worst day, they'll need us to be at our best, and our effectiveness will only be measured by our dedication in every minute leading up to that moment. I will always maintain the high standard of professionalism which was impressed on me by my JIBC training officers, and lead with that when engaging with the community."

# ABORIGINAL EDUCATION & TRAINING

## SUPPORTING THE NEEDS OF ABORIGINAL LEARNERS

Aboriginal learners are increasingly turning to JIBC to receive culturally appropriate education and services that ensure their success in the community and in the workplace.

The number of Aboriginal students studying at JIBC has nearly tripled over the past five years to more than 1,200 students in 2013-2014.

They are learners obtaining skills in a diverse range of courses and programs including JIBC's **Aboriginal Leadership Certificate**; the **Gladue Decision and Report Writing Course**; and the **Aboriginal Focusing-Oriented Therapy & Complex Trauma Certificate**.

JIBC has made it a strategic priority to support the education and training needs of Aboriginal learners in B.C. and across the country. This is reflected in a number of courses and services that have been created towards this end, including JIBC's Aboriginal Student Services and the Office of Indigenization.

Over the last few years, several additional activities have been initiated to support Aboriginal learners, including specific community-based program offerings and a speakers' series on campus. In 2015, JIBC also signed Colleges and Institutes Canada's historic Indigenous Education Protocol, which provides a vision of how the Institute will strive to improve and better serve Aboriginal Peoples.

"Establishing and deepening collaborative partnerships with Aboriginal Peoples and communities in B.C. and across Canada is a priority at JIBC," said Dr. Michel Tarko, JIBC President and CEO. "These partnerships have been integral to the creation and delivery of needed education and training unique to each community."

"JIBC continues to act on our commitment to support Aboriginal learners, communities and organizations in a manner consistent with the reconciliation process," said Dr. Laureen Styles, JIBC's Vice-President, Academic. "Through providing culturally appropriate education and training to meet the justice and public safety needs in the province, we are focused on fostering learner success; sharing Indigenous culture, history and knowledge with faculty, staff and students; supporting respectful relationships and engagement with Aboriginal communities, organizations and institutions; and enhancing approaches to applied learning that are culturally relevant and inclusive."

[JIBC.ca/aboriginal](http://JIBC.ca/aboriginal)

# Be the one

## *preparing for disaster*

Climate change, cyber security and pandemics are just some of the challenges public safety professionals have to address in today's constantly changing, and increasingly complex world. Economic, social, legal, environmental, and political factors have compelled government, business, and non-governmental organizations to enhance their safety, security, and emergency management practices in order to protect people, assets, and resources. This complicated environment calls for insightful new knowledge, technical skills, and the ability to think broadly and critically across a number of integrated areas.

If you have great interpersonal and organizational skills, the ability to work well in high-stress situations, and a passion for making communities and organizations safer

and more resilient, a career in security or emergency management might be for you.

Become a leader in the growing fields of emergency management, disaster planning, and public safety and security. As a JIBC Emergency Management Division (EMD) graduate, you could join a global relief organization and work overseas, manage security operations for an international summit, or become the next emergency coordinator for your community. It's all possible through JIBC.

Take courses and programs online or in class. And choose from certificate, diploma and four-year degree programs. JIBC offers five academic programs in emergency management and public safety:

the **Emergency Management Certificate**; **Emergency Management Exercise Design Certificate**; **Diploma in Emergency & Security Management Studies**; **Bachelor of Emergency & Security Management Studies**; and **Bachelor of Public Safety Administration**.

Combining theory with practice, you will get the job-specific education employers are asking for. Whether you're just out of high school, looking to supplement your degree, or upgrading your skills, JIBC's programs can put you on the right career path.

[JIBC.ca/emd](http://JIBC.ca/emd)

# SAILING TO VICTORY

ERIC HOLDEN

As a competitive yachtsman, Eric Holden has overcome the fierceness of Mother Nature to win many races.

As a skipper in the 2013-2014 Clipper Round the World yacht race, he led his international team to victory after sailing through hurricane-force winds in the Southern Ocean and squalls reaching 120 kilometres an hour (65 knots) while traversing the North Pacific.

His extensive sailing experience and meteorological background helped him navigate rough seas and stormy weather. But ensuring smooth sailing among his 55-member team and steering them to victory involved a different set of skills. For those, he turned to Justice Institute of British Columbia (JIBC).

Holden has had a passion for sailing his entire life. Over the years, the Vancouver native has raced across the Atlantic and Pacific oceans and competed in several prestigious races all over the world. He was a member of Canada's national sailing team for five years, and for the 2012 London Olympics, he served as team meteorologist for the Canadian sailing team.

After the Olympics, he was hired as one of 12 professional sailors for the Clipper Round the World Race, a challenging competition that gives amateur sailors the opportunity to circumnavigate the globe. Through a recommendation from a friend, he registered for courses from JIBC's Centres for Leadership and Conflict Resolution to ensure he had the skills to lead and manage his team through such an immersive and challenging experience.

"I have been competitive sailing all my life, and am pretty confident about my sailing skills. But I usually worked within a team rather than leading one," said Holden. "I signed up for these courses as I wanted to succeed in this race, and I saw my lack of management experience

as a potential liability." Given each crew consisted of paying clients, Holden knew that to be effective, he had to employ a different style of leadership.

"A yacht captain is used to an almost absolute authority on board. They say there's no democracy at sea. But since your crew members are also paying clients, the usual forms of discipline are ineffective," said Holden. "Racing is known to have a lot of shouting, but shouting is usually not the best way to get things done. In the Clipper Race, you can't push the crew if they don't want to do something. You really have to pull your team along and motivate them to do things with you." This collaborative approach came from his JIBC training which he put to work as soon as he met his team for the first time.

"One of the biggest things I learned is how important it is to just be quiet and listen. At our first team meeting, I could have used the time to explain to them how I would run the boat and their role on board. But instead, for four hours, I just shut up and listened to them. I asked them about their motivations, their goals, and concerns. I shared with them my expectations of them and ask for their expectations of me. Starting off with that communication was a strong way to build our team and signaled that I wouldn't be just bossing them around for a year."

Through his courses, Holden not only gained skills on how to best deal with people, but also learned something about himself. "When I took these courses, I found them really interesting. I got a lot out of it, and just the approach of the instructors worked really well. Obviously, the material they were teaching was great, but I got a lot of useful lessons from how they were delivering it."

He added: "I wish I had known about a lot of these skills earlier. It's beneficial for your entire life."

# Be the one

## leading the way

### LEADERSHIP AND CONFLICT RESOLUTION

For emerging leaders and seasoned managers and executives, JIBC's Centre for Leadership and Centre for Conflict Resolution offer the most comprehensive list of courses that provide practical, hands-on skills that can be used immediately.

Through JIBC's applied and experiential learning model, you will learn about the latest practices in leadership and conflict resolution and apply your knowledge and skills through role-playing scenarios. JIBC's leadership courses strengthen your capacity and confidence to lead with accountability, influence and integrity in today's complex environment. The Institute's conflict resolution courses provide the knowledge, skills and competencies to respond to conflict, communicate, negotiate and mediate in a variety of settings to enhance your effectiveness, and improve your personal and professional relationships.

JIBC's flexible offerings allow you to take a single course, or complete an entire program, such as the **Certificate in Applied Leadership, Certificate in Conflict Resolution, or the Associate Certificate in Leadership and Conflict Resolution.**

The Centre for Leadership also provides programs for new instructors, facilitators and workplace trainers. Through the Instructor Development Certificate, you can gain additional knowledge and skills in a range of topics including adult education theory and practices, training needs analysis, instructional development, design and delivery, designing and delivering online courses, and program assessment and evaluation.

### COUNSELLING

If you have a passion to help people in vulnerable situations, JIBC has the programs to provide the skills and competencies to realize your mission.

We educate practitioners who require the essential skills to protect, support and empower children, youth, adults, families and communities. Our diverse programs give people skills to assist individuals in coping with the consequences of crime and trauma, and the knowledge and tools to enforce community bylaws. We provide practical and relevant training that is designed for executive directors, managers, practitioners, frontline staff and supervisors in counselling and community safety roles.

JIBC offers more than half a dozen different programs for counsellors and therapists that assist individuals and families coping with a wide range of challenges. Among the programs available is the **Graduate Certificate in Complex Trauma and Child Sexual Abuse Intervention**, which draws on the most current research on effective complex trauma intervention.

[JIBC.ca/hcsj](http://JIBC.ca/hcsj)

# APPLY AND REGISTER

## APPLICATION PROCESS

JIBC offers several paths to career success, each with its own set of requirements for entrance. Not all programs or courses require applications; for some courses and programs, you can register directly through the Registration Office or online. Find out how to apply by referring to the web page of your program of interest.

For international students, there are additional application and registration requirements. Contact [international@jibc.ca](mailto:international@jibc.ca) or 604.528.5636 for registration information.

## WAYS TO REGISTER

Visit: [jibc.ca/registration/ways-register](http://jibc.ca/registration/ways-register)

### ONLINE

You can register online by finding a course with the Program and Course search, selecting the class you would like to register for, and then following the online instructions. Note that not all courses and programs are available for online registration. If you require additional assistance please contact Registration at [register@jibc.ca](mailto:register@jibc.ca). You can pay for most courses online using Visa or MasterCard.

### BY PHONE, MAIL, FAX OR IN PERSON

We accept Visa, MasterCard, Amex, cheques, and money orders in the mail. Please make cheques payable to Justice Institute of British Columbia. Complete the Course Registration Form and send with payment to:

Registration Office  
Justice Institute of British Columbia  
715 McBride Boulevard  
New Westminster, B.C. V3L 5T4

or fax to 604.528.5653  
or phone 604.528.5590 (Greater Vancouver area)  
or 1.877.528.5591 (Toll Free - North America only)

The student services office is open for in-person registrations Monday - Friday, 8:00 a.m. - 4:00 p.m.

## JIBC FINANCIAL AID & AWARDS OFFICE

Located within the Student Services Centre, the office is here to assist you whether you are a prospective or current JIBC student.

We provide one-to-one advising on student financial matters including information about available bursaries, awards and scholarships. We also educate students on external awards and government financial aid – loans and grants. To schedule an appointment please email [financialaid@jibc.ca](mailto:financialaid@jibc.ca).

## LIBRARY

The JIBC Library offers research assistance and access to a unique and specialized collection of books, journals and online sources, all focused on the programs offered here. The Library catalogue and other online resources may be searched while on a JIBC campus or over the web from other locations.

JIBC librarians are available to help locate information on subjects taught at JIBC and to assist students with a variety of academic and research skills, such as locating the most current journal articles or citing sources correctly. Computers available for student use in the Library all have Microsoft Office and Internet access, and a wireless network covers the entire building. Laptops and iPads are available to certificate, diploma or degree program students for short-term loan.

## STUDENT SERVICES

JIBC believes that supportive and effective student services are fundamental to helping you achieve your educational goals and career aspirations. Whether you are applying for a program or you are already enrolled, JIBC Student Services staff members are ready to help you with educational planning.

Recognizing the complex demands on students, JIBC's goal is to assist in planning students' academic paths, and to ensure these paths fit their learning and career goals.

Student Advising Services:  
[studentadvising@jibc.ca](mailto:studentadvising@jibc.ca) 604.528.5884 or 1.877.275.4331

## ABORIGINAL STUDENT SERVICES

Aboriginal applicants are invited to speak with JIBC Aboriginal staff about programs and courses, available funding for Aboriginal students, the application process or other features of JIBC that may be of interest.

Services include:

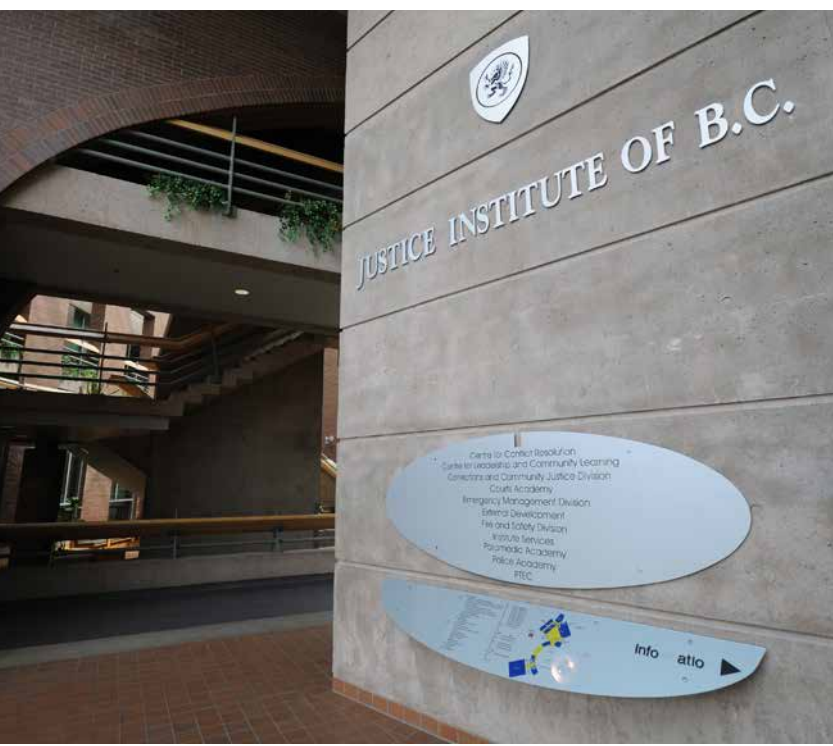

- Career planning
- Access to funding, scholarships and bursaries
- Delivering training in local communities

Aboriginal Student Services:  
Student Advisor/Recruiter: [aboriginal@jibc.ca](mailto:aboriginal@jibc.ca) 604.528.5621

## SERVICES FOR STUDENTS WITH DISABILITIES

JIBC is committed to providing a safe, inclusive and accessible environment for students with disabilities.

Disability Services works with faculty and staff to remove structural and attitudinal barriers in order to ensure that students with disabilities have access to resources and opportunities, allowing them to pursue educational goals with dignity, independence and full participation within the JIBC community.  
[disability@jibc.ca](mailto:disability@jibc.ca) 604.528.5884 or 1.877.275.4331

# SCHOOL OF HEALTH, COMMUNITY & SOCIAL JUSTICE

	DESCRIPTION	REQUIREMENTS
<b>Certificate in Applied Leadership</b> Centre for Leadership	This 20 day/10 credit certificate will help you develop the confidence, capacity and competence to effectively lead and manage in increasingly complex and dynamic environments.	<ul style="list-style-type: none"> <li>The courses and certificate are open to anyone. There are no formal requirements for admission.</li> </ul>
<b>Associate Certificate in Training and Facilitation</b> Centre for Leadership	This 11-day/5.5-credit hands-on certificate program offers both new and experienced trainers and facilitators comprehensive knowledge, skills and experience in adult education practice and theory. For a full list of admission requirements please visit <a href="http://www.jibc.ca/tacticalanalysis">www.jibc.ca/tacticalanalysis</a></li> </ul>

# Be the one

*supporting safe, secure and healthy communities*

The JIBC Foundation plays a pivotal role in maintaining the Institute's reputation for excellence, innovation and leadership in public and community safety education. By inspiring giving through various activities, the Foundation raises funds for student support, applied research, equipment, technology and other tools for learning. In 2014-2015, thanks to the generosity of donors, the Foundation disbursed \$1.1 million in support of public safety education at JIBC.

Beverley and John Carl established an award for Primary Care Paramedic students to express their appreciation to the paramedics that helped save Beverley's life after suffering a heart attack.

"It's a way for us to give back to the health care system that was there for us in our time of need," said John regarding the creation of the Beverley and John Carl Award. "We feel it's such a worthwhile thing for young people to be involved in health care. We just want to support that, to provide a little bit of help so they can achieve their goal."

At the 2015 Winter Convocation, the Carls had the opportunity to meet the first recipient of their award: Matt Brown.

"I really wanted to be involved," said Beverley. "I really wanted to have the opportunity to say to him, in person, 'Congratulations; well done.'"

What has made the establishment of the student award so rewarding for the Carls is the knowledge of its potential to have a lasting, profound impact on students.

"Matt said to me, which made it all worthwhile, 'By receiving your award, you've validated what I want to do,'" recalled Beverley. "We set the criteria for the award, and he met the criteria, but now he also feels he's made the right choice. That's the kind of thing we are hoping to reinforce. That means so much to me, to see the value of the award is more than just financial."

[JIBC.CA/foundation](http://JIBC.CA/foundation)

# ONGOING PROFESSIONAL DEVELOPMENT

## CONTINUING YOUR PUBLIC SAFETY EDUCATION AT JIBC

If you've been recruited to be a police officer, a sheriff or a correctional officer, you'll be receiving your mandatory training at JIBC.

The Institute is home to B.C.'s Police Academy, which is responsible for training all municipal police recruits in the province. The Academy also offers online courses for experienced police officers. Candidates must first be employed by one of B.C.'s police departments in order to be eligible for enrolment.

In partnership with the Corrections Branch of the BC Ministry of Justice, JIBC also trains all Adult Correctional Officers in B.C., who supervise sentenced and remanded adult offenders in correctional centres throughout the province.

JIBC also develops and delivers training for BC Sheriff Services. Through the Institute's Threat Management Centre of Excellence, JIBC offers specialized training, both online and face to face, in high-security trial management, protective intelligence and risk and threat assessment for individuals and facilities.

But even after you've completed your basic training and you've become a vital public safety professional, your educational journey at JIBC is far from over. In fact, your training at JIBC will continue throughout your career.

Using instructors who are active in their respective fields, JIBC designs, develops and delivers courses that fulfill continuing

professional development requirements for a wide range of public safety careers including law enforcement, firefighting and paramedicine.

If you're a police officer, you'll have the opportunity to learn new investigative skills through a number of certificate programs. If you're a firefighter, you can learn the latest methods in dealing with hazardous materials or specific firefighting scenarios. If you're tasked with preparing your organization's emergency management plan, you can learn the latest in business continuity plans or creating effective drills and exercises.

These are just some of the examples of continuing education that professionals gain at JIBC.

As Canada's leading public safety educator, JIBC continues to expand and update its program and course offerings to meet the evolving needs of public safety professionals in B.C. and around the world.

With nearly four decades in professional development training, JIBC has become a trusted provider and developer of public safety continuing education. So much so that the Institute provides training and professional development consulting services to help learners around the world receive the training that best serves their needs.
