WELCOME

Welcome to Justice Institute of British Columbia (JIBC) – Canada's leading public safety educator with a mission to develop dynamic justice and public safety professionals through its exceptional applied education, training and research. JIBC offers internationally recognized education that leads to certificates, diplomas, bachelor's degrees and graduate certificates; continuing education for work and career-related learning and development; and customized contract training to government agencies and private organizations worldwide. Our approach to education emphasizes realistic simulations and applied learning facilitated by instructors who are experienced practitioners. Each year, more than 29,000 students study at one of JIBC's six campuses in B.C., through online education, and at more than 165 other locations in B.C., across Canada and around the world. Our education contributes to safer communities and a more just society by providing professionals with the knowledge, skills and abilities to excel at every stage of their careers.

Message from the President

We live in an ever-changing world where prosperous families, cities and economies depend on the stability and reliability inherent in just societies and safe communities. To help maintain and strengthen this important foundation of prosperity, every day, we rely on passionate and dedicated public safety personnel and professionals helping to keep our communities safe.

Justice Institute of British Columbia (JIBC) is proud of our vital role in providing the education and training for tens of thousands of public and community safety professionals and volunteers each year in B.C., across Canada and around the world.

The positive impact of our graduates is strongly influenced, and in many cases, relies on, the dedication and commitment to student success by JIBC's experienced faculty. Your efforts are clearly appreciated by your students. According to the BC Student Outcomes Survey, year after year, the vast majority of graduates rank the quality of the instruction they received at JIBC very highly, stating that the education they received from you helped them in a position related to the training they received. And for those who are interested in pursuing further education, 91% said their JIBC education prepared them for that too.

As the needs of people in public and community safety continue to change, you are helping JIBC contribute to the life-long learning and long-term success of our students, graduates and clients across various sectors in the community, government, business and industry. To each of you, I want to express my sincere appreciation for all that you do to help our students excel both in class and in their workplaces and the communities they serve.

Dr. Michel Tarko
JIBC President

1. JIBC Overview

JIBC's programs and our graduates are critically important to B.C. as communities continue to focus on individual and societal safety and security. In addition to educating individual police, fire, paramedic, corrections, courts and emergency preparedness / management professionals, JIBC prepares counselors and other providers to assist survivors, facilitate restorative justice practices and resolve conflicts for organizations and professionals in both the public and private sectors. JIBC is a comprehensive public post-secondary educational institute with a continued focus on justice, public and community safety consistent with our mandate. Our training and education ranges from short duration community-based courses to recruit/post-hire training through to graduate certificates with more recent programming in areas of advanced law enforcement, specialized counseling such as complex trauma and sexual abuse, intelligence analysis, and tactical crime analysis.

In recent years, the public's perceptions and expectations of the professions we serve have changed. This has come about because of technological advancements and a wider understanding of how complex and dynamic the issues can be in justice and public safety. We have responded to those changes by sharpening our focus on professionalism, to help ensure that every student has more than simply an optimum base level of knowledge and a basic competency. JIBC students have the opportunity to acquire a measure of professionalism that goes beyond skills training and is associated with a broader competency base gained through their post-secondary education. Additionally, JIBC recognizes the unique identity and educational needs of Aboriginal learners, and works to enhance equitable and collaborative partnerships with Aboriginal Peoples in support of culturally appropriate education, training and research.

JIBC programs are delivered within a framework of three schools:

PART II

FACULTY RIGHTS AND RESPONSIBILITIES

Welcome to the JIBC instructional team. Whether joining us to teach online or in a face-to-face setting, we hope the information in this manual is helpful and answers many of your questions.

Our goal is to create an excellent learning environment for our learners and a desirable place for people to work. We believe that our reputation for delivering relevant, high quality programs and courses is well deserved. We know that it takes a dedicated team of faculty, support staff and administrators to ensure that we maintain that reputation.

This guide provides an outline of what is expected from you as a representative of the JIBC. It also describes services that support the learning process and are available to you and your learners. Any suggestions you have for enhancing your experience, as a faculty member and optimizing the experiences of our learners are always welcome. Drop your contact person an e-mail, stop by and chat or pick up the phone. They like to hear from you.

We want to ensure the best possible experience for our learners and, as a faculty member, you play a major role in making that happen. Simple things, like being set up and ready to start teaching at the appointed time, can make all the difference.

We expect all of our faculty members to:

- Be responsive to learners who may need individual attention or assistance;
- Attend the class, whether face-to-face or online, for the full number of hours agreed upon;
- Teach to the course outline and maintain good class records and grades where applicable;
- Follow our Faculty Code of Conduct (see following page).

If teaching in the classroom:

- Remove and discard all used flip chart paper, name cards, and other course material at the conclusion of the session;
- Ask learners to remove beverage containers, coffee cups, or other personal items from the classroom;
- Return course evaluation and class attendance sheets to the program assistant at the conclusion of your classroom course.

If teaching online

As an online facilitator, your responsibilities include the following:

Facilitation of your designated course, including but not limited to:

- Encouraging discussion and helping students make connections between theory and practice
- Answering questions related to course content and assignments
- Monitoring student progress and addressing performance and participation problems
- Marking all course assessments and maintaining Blackboard Grade Centre
- Communication with students throughout the semester, including the exam period
- Monitoring discussion boards daily
- Responding to student emails within 72 hours (maximum)
- Being available one hour per week, where required for synchronous communication (phone or online chat) by appointment
- Compliance with all relevant JIBC policies, procedures, and guidelines related to instruction

Please note the above may vary, depending on your agreement with your specific program area.

3. Code of Conduct

Effective November 2014 the BC's public sector organizations will operate under new taxpayer accountability principles which strengthen accountability, promote cost control and ensure that corporations operate in the best interests of taxpayers.

The **Taxpayer Accountability Principles** apply to all provincial public sector organizations, including Crown corporations, health authorities and post-secondary institutions. These principles are:

- Cost Consciousness (Efficiency)
- Accountability
- Appropriate Compensation
- Service
- Respect
- Integrity

In response to this provincial government directive, JIBC, along with the other 18 colleges, institutes, and universities, worked collaboratively to develop a **Code of Conduct** based on the BC's Taxpayer Accountability Principles.

Our students and stakeholders count on JIBC to provide high-quality training and education, which meets the needs of a wide range of students. They also expect JIBC to conduct all its business with the highest level of professionalism, efficiency, and courtesy.

JIBC's Code of Conduct embeds JIBC's core values and the maintenance of high ethical and professional standards in all of its activities. It does not override but, rather, complements existing JIBC policies and procedures.

The Code of Conduct applies to all employees of JIBC including full-time, part-time, sessional, term, and casual employees. Each employee is responsible for familiarizing him/herself with the provisions of the Code and ensuring that she/he complies with them.

All employees are required to formally acknowledge that they have read and understood the Code of Conduct policy. To access the policy please click on the link or access through the JIBC website:

<http://www.jibc.ca/policy/2301>

4. Payment for Instructional Services

Sessional employees

Most teaching faculty members are sessional employees of the Institute. Sessional employees submit a timesheet for work performed and the payment is processed through payroll on a bi-weekly basis. Expenses for reimbursement, where applicable, are submitted for payment using the Staff Expense Claim.

Independent contractors

Some teaching faculty members work for the Institute as independent contractors. Independent contractors have to submit an invoice for services and, where applicable, expenses. Accounts Payable processes invoices.

If you are invoicing the Institute for the first time as an independent contractor you need to complete the FIN120 Contractor Information Sheet. The coordinator can provide you with the form. The form requires:

- Business Identification Number (BIN#) or GST number
- Social Insurance Number if you don't have either a BIN# or a GST#
- WCB number if registered

Contractor invoices must include:

- Name, Address, Phone number
- GST number – if registered for GST
- Purchase Order – a purchase order is required if the services are valued at \$5,000 or more
- Fees for services and expenses claimed shown separately.

Original receipts are required for expense reimbursement (except per diems and mileage allowances – where applicable).

5. Registration - Attendance

Please be sure to:

- Confirm attendance of all participants for each day of the course. If a participant's name does not appear on the registration list, and he or she is not taking the place of another participant, please direct the person to the Registration Office (by phone if you are not at the New Westminster Campus).
- Note any substitutions by recording the name of the registered learner, and the name, address and phone number of the replacement.
- Return records of attendance to the program assistant or other designated program area staff at the conclusion of the course (unless otherwise specified).

6. Course Outlines

A course outline should be included as part of the material you hand out to participants on the first day of class. This document is your “learning contract” with the learner. It provides an opportunity to clarify your expectations as a faculty member and address learners’ questions or concerns at the outset of the course. This process is intended to avoid any future misunderstandings or learner appeals, particularly relating to evaluation procedures.

Faculty are not permitted to arbitrarily make changes to course content. If there is a change required please go through your JIBC contact.

7. Course Evaluations

We take course evaluations very seriously. Please ensure that participants have time at the end of the course to complete the course evaluation.

Please check with the Program Assistant regarding the format of the course evaluation, i.e. hard copy or online version which is emailed directly to students following the class.

Please distribute and collect the evaluation forms in a manner that respects the confidentiality of the evaluations. For example, ask one learner to collect all the questionnaires, put them in the envelope provided and seal the envelope.

If you or your learners have any ideas about improving the evaluation process, please pass this information on to the appropriate program staff.

8. Classroom Etiquette & Cleanup

Classroom Etiquette

JIBC policy prohibits the presence of any animals other than designated Support Dogs.

Please do not bring children, additional teaching faculty or non-registered learners into the classroom without the permission of the program coordinator and/or director.

As noted in the Student Handbook, students are asked to refrain from wearing strong scented perfumes, colognes, aftershave, or lotion at the JIBC as many people are allergic to scents.

Beverages are allowed in the classroom but must be in a covered container to avoid spills. Food is not allowed. Please share this information with your learners.

Classroom Cleanup

At the end of the class, it is the teaching faculty member's responsibility to remove and discard all used flip chart paper and name cards in preparation for the next class. Please ask learners to remove all beverage containers, cups and glassware. Please leave the room the way you would like to find it if you were to teach there the next day.

9. Out of Town Courses

Check with your specific program area regarding:

- Transportation
- Accommodations
- Meals
- Course Equipment and Materials
- Other Expenses
- Expense Reimbursement

10. Respect in the Workplace

The JIBC's success at maintaining a positive and respectful environment has been and will continue to be a significant factor in contributing to our vision of being a world leader in justice and public safety education and research.

Successful completion of JIBC's *anti-Harassment online training course*, "Respect in the Workplace", would be a requirement for all JIBC faculty and staff including sessional instructors, contractors, secondees and volunteers who represent the JIBC in providing training services to our students. All new sessional instructors, contractors, secondees, volunteers, full time, part time, casual and term employees are expected to complete the course within the first month of their employment.

The "Respect in the Workplace" course consists of two modules; one is for employees and the other is for managers/faculty. Employees who do not supervise or instruct students must complete the "Employee" module. Those who supervise others and/or instruct JIBC students will complete the "Manager/Faculty" module. Those completing the Manager/Faculty module do not need to complete the Employee module. Each module takes approximately 25-35 minutes to complete and will be available through both the internet and through JIBC's intranet.

New sessional instructors, secondees, contractors, volunteer Instructors, full time, part time, casual and term employees

- Will receive access information at the time of their hire from human resources and will be instructed to complete the course within the first month of their employment.

Completion of the "Respect in the Workplace" course by our faculty and staff is an important activity in contributing to the JIBC maintaining a respectful and positive workplace and learning environment. Thank you in advance for your cooperation and support of this initiative.

11. Freedom of Information and Privacy

Under the *Freedom of Information and Protection of Privacy Act*, it is prohibited to release participant information without the participant's explicit, written permission. If participants ask for a course contact list, you may circulate a separate sheet and each participant can provide the information he or she is willing to share (e.g., name, address, phone, fax, email.) Please speak with the program assistant in your department to make copies of this course contact list.

CAMPUS OPERATIONS & LOCATIONS

24. Room Set-up, Furniture, Audiovisual Equipment and Supplies

New Westminster

Program staff will do their best to have your classroom set up the way you want it. Please give them plenty of advance notice. However, sometimes this is not possible and you may have to do it yourself. We recommend you arrive a few minutes early to deal with any unanticipated problems with the room set-up, equipment or course materials.

If you require assistance with room set-up, supplies, materials, equipment, etc., please notify your program assistant prior to the start date of the course. Give yourself lots of lead time in order to ensure your requests can be accommodated.

After completing the class please return any course materials, supplies, attendance sheet and evaluations to the program assistant. (If it's after hours, leave the materials at the Information desk in the atrium).

Please report any damaged furniture or audio/visual equipment malfunctions to the program assistant. Please **do not** move furniture or equipment between classrooms. If you require additional furniture, contact your program assistant.

All Other Campuses

Room Set-up, Instructional Audio/Visual Equipment and Supplies procedures may vary from campus to campus. Please check with your program area for specific procedures prior to the start date of the course.

Please **do not** move furniture or equipment between classrooms. If you require additional furniture, contact facility staff onsite.

25. Assignment of Classrooms

Classroom assignment including homeroom and breakouts are booked via the program staff in the division. Please check with your division prior to the start of the course for room number(s) and location.

Classroom are assigned as per size requirements and technical requirements and not by preferred floor or specific location, unless otherwise agreed, i.e. simulation room , or video conference room.

Monitors are now located in the corridors on every floor of the classroom block at the New Westminster campus. The monitors will display room numbers, course / event names and classroom locations for courses and events taking place each day.

26. First Aid

New Westminster

A first aid attendant is available Monday-Friday between 7:30 a.m. and 4:30 p.m. If you require minor first aid or are aware of someone who does, dial "0" to contact the Main Information desk. Note: First aid attendants do not administer drugs.

**If the injury appears serious, call 911
(or 9-911 if using an internal JIBC phone) and then notify
the Main Information desk (dial "0")**

All Other Campuses

Please check with program staff in the division prior to the start of your course for first aid procedures.

27. Fire Drills/Evacuation

Fire drills are held once a year during the summer months. The alarm for a drill is indistinguishable from a regular fire alarm and so each fire alarm should be treated as a real incident.

If your class is in session when the fire alarm rings, ensure that all learners leave the classroom in an orderly manner, close the windows and close and lock the door (if you have a key), behind you to ensure the safety of the valuables left inside. Take your daily attendance list with you.

If you are NOT in class, leave the building immediately. Do not use an elevator. Evacuation team members will direct you to the nearest emergency exit.

Follow your class to the designated assembly area – (please note the New Westminster assembly areas are located on the 8th Ave and McBride sides of the parking lot). Take attendance at the assembly area. Report any missing people and their last-seen location to the assembly area controller. Re-enter the building only when the alarm has stopped ringing and you are advised to do so by an evacuation team member.

Please note each campus has site-specific Evacuation Procedures. Please familiarize yourself with the procedures when onsite.

28. Campus Security

Security is an important issue at all times of the day and night. Please ensure the security of your valuables and personal possessions while on campus and always lock your vehicle. If you must leave the building after dark, you are encouraged to use the “buddy system” and watch out for each other. We suggest that you familiarize yourself with the layout of the campus and the surrounding environment.

As hours from campus to campus differ, please contact your program assistant for current campus hours and the latest updates.
