

FUTURE OF PARAMEDICINE

A glowing blue digital wave with particle effects, consisting of many small blue dots and plus signs, creating a sense of motion and data flow.

pierre poirier

ottawa paramedic service

2021 June 10

CONTEXT

De-institutionalized care

Non-exclusive scopes of practice

Health care as a top three public concern issue (2020, Number 1)

Current health care model is not working

Government money

OPPORTUNITY

Macro

To capitalize on out of hospital care (in home care).

To expand the paramedic scope of practice (demonstrate relevance and competence)

Offer a low-cost solution to government

OPPORTUNITY

Micro

Miniaturization

Portability

Software solutions: predictive analyses

Clinical decision tools

FUTURE

Professional colleges

Education: baccalaureate

Non-urgent care (an expanding share of the care provided)

Health navigation (aligning client/customer/patient need with the appropriate service)

Owning research: clinical and operational
