

PCP Program Re-admission Fees

Upon successful application, re-admission fees are dependent on the course at which a student will be re-entering the program. As part of preparation for re-entry, students may request to audit one or more previously completed courses. Audited courses will be included in determining the re-entry point in the program.

For more information on program re-admission and course audit please refer to Program Guidelines and Procedures located at www.jibc.ca/pcp
