GENERAL - DVDs

D441 **Hospital Incident Command System** (DVD, 27 minutes)
Hospitals and other healthcare facilities need an emergency management plan for any type of event that adversely affects the facility. This program covers key concepts of the Hospital Incident Command System (HICS) and its integration with other emergency organizations. (Emergency Film Group) (RA 645.5 H675 2007)

EMERGENCY MANAGEMENT FOR HEALTH CARE FACILITIES

- D443 **Patient Decontamination** (DVD, 27 minutes)
Hospitals must have a plan to decontaminate large numbers of casualties in the event of a major terrorist, hazmat or natural catastrophe, resulting in contaminated patients. Without a plan, hospital risk contamination of staff, patients, and the facility. This program outlines the process of quickly mobilizing a hospital decon team. (Emergency Film Group) (RA 645.5 P283 2007)
- D440 **Recognizing Contaminated Patients** (DVD, 26 minutes)
Healthcare workers risk exposure to hazardous materials or terrorist agents when hospitals receive contaminated patients. This program provides training to first receivers who provide initial care and treatment of contaminated victims. Topics covered include the following: types of incidents that could result in widespread contamination; terrorist agents including chemical, biological, radiological, explosive and incendiary; hazardous materials including toxic, corrosive, flammable, reactive, and radiologic; patient symptoms of exposure; and First Receiver training requirements. (Emergency Film Group) (RA 645.5 R433 2007)
- D442 **Self Protection** (DVD, 29 minutes)
Selecting the proper type of personal protection equipment is important to protect health care workers from exposure to contaminated patients. This program explains about the different choices in PPE and the issues involved in selecting the correct ensemble. (Emergency Film Group) (RA 645.5 S456 2007)

FIRE - BOOKS

Fire and Life Safety in Health Care Facilities by Marvin J. Fischer ... [et al.]. Quincy, MA: National Fire Protection Association. (TH 9445 H7 F567 2006)

FIRE - DVDs

- D344 **American Heat, February 2003: Nursing Home Fires** (DVD, 76 minutes)
First responders face unique challenges when responding to the scene of a nursing home emergency. Fires in these occupancies offer challenges such as incapacitated patients, oxygen-enriched atmospheres, bedding and building construction issues. This program reviews the importance of a rapid, coordinated fire attack and rescue of any trapped occupants. It also addresses pre-fire action plans and proper public fire education. The Back to Basics segment covers portable fire extinguishers. (American Heat Inc.) (TH 9310.5 A443 2003 FEB)

EMERGENCY MANAGEMENT FOR HEALTH CARE FACILITIES

- D539 **American Heat, January 2008: Nursing Home Fires** (DVD, 30 minutes)
In this program participants will develop an understanding of the importance of identifying assisted care facilities in their communities and the unique challenges faced during fires involving these facilities. Methods of developing action plans and training techniques for potential incidents at these facilities are covered. The program also provides methods to reduce the likelihood of an incident at a facility. NFPA 101 and 901 are discussed. (TWL Knowledge Group) (TH 9310.5 A443 2008 JAN)
- D1028 **High-Occupancy Structure Fires: Healthcare Occupancies** (DVD, 30 minutes)
Tackling a high-occupancy structure fire means playing by a different set of rules. Hotel or apartment buildings require special techniques, but what about a healthcare facility? This program takes you behind the scenes to learn what works and how you should adapt to this particular type of fire emergency. It looks at types of fires at healthcare facilities; pre-fire planning; size-up considerations at these types of fires; and fire code considerations. (Critical Information Network) (TH 9445 H7 H546 2010)

SECURITY - DVDs

- D1295 **Risk Management: We're All in This Together: Managing Risk in Residential and Continuing Community Care** (DVD, 20 minutes)
In this DVD, comedian Red Green narrates a series of scenarios which are focussed on risk management issues in the workplace. The scenarios are interspersed with comments from health care providers who talk about risk management at their respective facilities. The video and accompanying training materials have been produced to provide a distance education tool for health care facilities and to assist in the prevention and reduction of injuries to staff and clients. (Justice Institute of British Columbia, Social Services and Community Safety Division) (RA 971.38 R585 2000)
- D1853 **Drawing the Line** (DVD, 30 minutes)
Provides viewers with critical skills on assessing and diffusing aggression on the job. Also offers ideas for discussion and problem solving. Shows a variety of work situations in which patients display aggressive behaviour toward health care staff. The program focuses on prevention, communication skills, intervention strategies, and follow-up meetings on abusive incidents. Follow-up meetings review the incident and evaluate ways to reduce future risk. Acute care and community care settings are illustrated. Includes Facilitator's guide, Set-up and operations manual for Emergency Response Teams (ERT), Program development manual for Critical Incident Stress Management (CISM) and Policies & procedures guidelines. (B.C. Health Association) (RT 86.3 D724 1993)
