We’re pleased to announce that you can now receive Library News regularly, right in your e-mailbox. Just send an e-mail to our new listserv address, and you’ll automatically receive a copy of Library News in your inbox, as soon as it is published.

An easy way to do this is to visit our webpage at www.jibc.bc.ca/Libraryfiles/main/Services/LibraryNewsnewsletter.htm where you can just click on the HERE link to subscribe. After you click on the link, all you need to do is send the e-mail. Nothing else is required.

Another way to subscribe is to send an e-mail to the following address:

listserv@listserv.jibc.bc.ca

with the following line in the message area:

Subscribe JIBCLIB-L

Nothing is required in the subject line. Sending the Subscribe JIBCLIB-L message to listserv@listserv.jibc.bc.ca will sign you up to receive Library News automatically.

We will continue to post the current issues and the archive of previous issues on our webpage (listed above), as we’ve been doing for the past several years. The advantage of signing up for the subscription is that you will receive the pdf file directly in your inbox, as soon as we publish it.

As always, if you have any questions about this – or any of our resources or services – please don’t hesitate to contact us by phone, 604-528-5599; fax, 604-528-5593; or e-mail, library@jibc.bc.ca.

VIDEOS

V2985 Different Directions: Understanding Fetal Alcohol Syndrome (video, 22 minutes, 2000)
Parents tell their stories about their children affected by FAS and how they deal with all the problems. (Ontario’s North for the Children)

V2966 FAS: When the Children Grow Up (video, 40 minutes, 2002)
This program tells the story of adults living with fetal alcohol syndrome (FAS) and fetal alcohol effects (FAE) — some who were diagnosed early and others who were not — and the events, programs, and people who made a difference in their lives. (Magic Lantern Group)

V3047 School of Hope: Teaching Kids with Fetal Alcohol Syndrome (video, 13 minutes, 2002)
Features an innovative program at David Livingstone School, a public elementary school in Winnipeg, for FAS students. A few years earlier, teachers decided to take on the responsibility for learning about and adapting to their students’ particular physical and mental needs. They designed two special classrooms and used other tools to help with light and sound sensitivities to create a calming environment, and tailored teaching and feedback techniques to compensate for the challenges FAS children have in learning and gaining social acceptance. **VIDEOS**

**V2815 Cardiac Emergencies** (video, 81 minutes, 2003)

One of the most serious and life-threatening aspects of heart disease is acute coronary syndrome, or ACS. Segment one of this program describes the pathophysiology of ACS, classic and atypical signs and symptoms, diagnostic tools and out-of-hospital management of the ACS patient. Segment two addresses special considerations, such as implantable cardiac devices, transcutaneous pacing (TCP), public access AEDs, steroid-induced cardiac emergencies, and right-sided myocardial infarction. Segment three discusses current issues including medications (vasopressin and amioderone), fibrinolytic administration, and “hot” cath labs. The脉冲Plus segment covers congestive heart failure. (FETN)

**V2916 Coronary Heart Disease** (video, 36 minutes, 1999)

Provides an introduction to the workings of the heart and the biology of the disease process, describes the individuals who are at risk and what can be done to reduce those risks, and explains investigations, treatments and rehabilitation. Emphasizes that modern techniques have a great deal to offer those patients with established heart disease. (Distributed to B.C. post-secondary institutions by Image Media)

**V3065 The Heart of EMS: Cardiac Emergencies** (video, 60 minutes, 2005)

Provides a comprehensive review of the essentials of cardiac emergencies. Progresses from normal anatomy and physiology to pathophysiology and recognition of common cardiac-related events that EMS personnel respond to and treat. Also presents current research trends and treatment modalities. (Primedia)

Library News March 2006

V3086 or American Heat, January 2006: American Heat’s 20th Anniversary: Then and Now
D122 (video or DVD, 30 minutes, 2006)
Over the past twenty years, the fire industry has undergone major changes and technological advancements. The results are lower rates of property losses and safer citizens. This episode celebrating 20 years of American Heat discusses the changes that the fire industry has undergone, including the following: improvements in fire apparatus, the newest breakthroughs in response vehicles, and the latest practices used by modern firefighters to safely fight fires. (Trinity Workplace Learning)

D079 Back to Basics (DVD, 26 minutes, 1998)
This program on DVD impresses on corrections staff members the importance of following “the basics:” the basics being the fundamentally correct basic procedures. It is designed for the new officer and as a refresher course for veteran officers. Two of the primary factors responsible for a breakdown in “the basics” in a correctional environment are overcrowding and automation. Inmates will notice any deviation from basic procedures and may exploit the situation in any way possible. This program discusses these situations, and more. (Lockup USA)

V3062 Early Adulthood: Love, Marriage & Divorce (video, 28 minutes, 1999)
Using live action video and discussion, this program considers various issues concerning intimate relationships in early adulthood. These issues include the following: various styles of relationships and the variables that increase the chances for a long-term relationship; the evolution of love; the marriage commitment, and changes in laws, social norms, and values and expectations of marriage; and, why so many marriages end in divorce. (Distributed to B.C. post-secondary institutions by Image Media)

V3073 or EMS Support of Special Operations (video or DVD, 28 minutes, 2005)
D042 This episode of Emergency Medical Update describes the principles of tactical EMS operations and support during a law enforcement special operation (SWAT). It provides information on preplanning and logistical support for extended special operations, gives safety precautions, and discusses rehabilitation considerations to ensure the well-being of each person participating in a special operation. (Trinity Workplace Learning)

V3075 or Everyday Pediatrics (video or DVD, 29 minutes, 2005)
D041 This program describes the anatomical and physiological differences in pediatric patients and how these differences affect Emergency Medical Services (EMS) practice. It also includes a segment that describes the disease process and the relevant treatment modalities of common pediatric respiratory emergencies. (Primedia Workplace Learning)

D039 Origins of Human Aggression: The Other Story (DVD, 50 minutes, 2005)
Is human aggression a result of nature or nurture? Interviews with researchers from various fields shed light on this question. Startling footage of children acting out their aggressive impulses adds to this compelling documentary that examines the complex factors that affect the socialization of aggressive behaviour among humans. (National Film Board of Canada)
Playing and Learning  (video, 28 minutes, 2003)
Illustrates the way that children’s experiences with toys, games and puzzles between the ages of two and five contribute to the development of their cognitive abilities as mastery of language improves dramatically and memory skills become more useful to them during these years. Shows how adults can assist learning through guided participation and scaffolding. Explores different theories by Jean Piaget and Lev Vygotsky explaining the cognitive development of preschoolers. Asserts that language, theory of mind, and memory can be enhanced when children are placed in an “enriched” environment, such as a preschool.  (Distributed to B.C. post-secondary institutions by Image Media)

The Story of a New One Minute Manager  (DVD, 34 minutes, 2000)
Based on the book The One Minute Manager by Ken Blanchard and Spencer Johnson, this program discusses management techniques which lead to increased productivity personal prosperity, and corporate profit.  (Ken Blanchard Companies)

Taser:  Behind the Headlines  (DVD, 28 minutes, 2005)
This program is a response to Amnesty International’s criticism of taser use and desire for a moratorium. It presents Amnesty International’s best arguments as well as counter-arguments from TASER International. It also presents opinions of medical and use-of-force experts.  (In the Line of Duty)

The Truth about Point Shooting  (DVD, 80 minutes, 1998)
Is point shooting effective in real street encounters? What is “indexing?” What is flash sight picture? Do you have time to look at your sights in a real gunfight? Can you shoot from the hip with accuracy? These question and more are answered as Larry Magill introduces his “sweet spot theory” to defensive pistol craft.  (GunVideo)

V6A 1N6:  A Television Essay  (video, 47 minutes, 1997)
Looks at one of Vancouver’s downtown neighbourhoods which is considered the worst place to live in Canada, with its concentration of drug abusers, alcoholics, prostitutes and the homeless. It has the highest infection rates for tuberculosis, pneumonia, and hepatitis in North America, and the highest HIV infection rate among drug users in the developed world. Interviews locals, police officers, social workers; visits the life on the street, public health outlets and hostels; looks at how people cope; and explores some initiatives for a better future.  (Distributed to B.C. post-secondary institutions by Image Media)

Who Am I?  (video, 28 minutes, 2003)
This program explores the psychosocial development of adolescents. Erik Erikson identified this period as one of identity versus role confusion. As adolescents endeavour to adopt adult roles, they are still in the process of discovering who they are and what they want in life. Forging an identity involves integrating a set of values, beliefs, attitudes, and aspirations into a coherent and relatively stable self-definition; this happens throughout life, but is especially intense for adolescents exploring themselves.  (Distributed to B.C. post-secondary institutions by Image Media)
Who has time to read? Thanks to the Crisp Fifty-Minute series, you do! In just fifty minutes you can do more than just read; you can learn critical business and professional development skills. The workbooks in this series are designed to deliver intensive knowledge in a concise, memorable format. Packed with activities, planning tools, self-evaluations, and effective, real-life examples, these widely acclaimed, easy-to-follow lessons can be used in a self-paced format, whenever you have the time.

Understanding the numbers associated with day-to-day business operations is no longer just the domain of the finance and accounting departments. Everyone from front-line staff to senior managers should learn the fundamentals of the cost of the organization’s product or service, the price strategies involved, and the impact of decisions on the bottom line. Accounting Essentials: Managing by the Numbers by Jay Jacquet teaches the basics of finance, accounting, and economic strategies in an easy-to-follow, easy-to-understand format complete with glossaries, diagrams, and self-tests. It describes how various business transactions are reflected in the financial statements; discusses costs and their effect on profitability and decision-making; explains the concept and calculation of break-even analysis; and explains other accounting essentials. (HF 5635 J223 2005)

With constant demands pulling us in every direction, more and more of us are recognizing the need to reevaluate, reorganize, and reprioritize to live the life we want. Sam R. Lloyd and Tina Berthelot address this in Achieving Life Balance: Taking Action for a Better Life. The tips in this book will show you how to take charge, set goals, and rewrite your life script in order to change the patterns that may be keeping you from living a better life. Each lesson will help you reassess each area of your life and find ways to achieve better balance by looking at how you manage your self, your time, and your relationships. (BF 637 S8 L563 2005)

Communication is a basic skill that affects all aspects of business life. Our words, gestures, appearance, and body language all “speak” volumes as to our intent, state of mind, and attitude. Learning to recognize these conscious and unconscious cues, as well as paying attention to others’ signals, make us better communicators and leaders. Communication skills can be learned, and Bert Decker provides the tools to get started in Communication Skills for Leaders: Delivering a Clear and Consistent Message. It discusses nine behavioral skills for effective communication, and provides ways to improve in each area. It also provides worksheets for developing an action plan for further improvement. (HF 5718 D415 2006)

The losses we experience are seldom ones we have control over. Changes in the workplace, such as mergers, downsizing, and reorganization, or the death or serious illness of a loved one or a co-worker, affect our morale and productivity. In Coping with Workplace Grief: Dealing with Loss, Trauma, and Change, J. Shep Jeffreys discusses the sources of change in the workplace and explores the different ways people react to change. It is intended to help the reader accomplish the following: identify sources of change in the workplace that may trigger feelings of loss or grief; discover the impact of threatened or lost workplace attachments; understand various reactions to workplace change caused by reorganization, downsizing, trauma, death, illness, impairment, and other actions outside their control; learn how unacknowledged reactions to loss and grief can affect productivity; acquire techniques for supporting people in grief, including recognizing when someone needs professional counseling; and recognize when they are experiencing reactions to change and explore techniques for dealing with their own sense of loss or grief. (HF 5549.5 C8 J443 2005)

In Creating Rapport: Using Personal Power to Influence without Control, Elaina Zuker provides readers with information to develop rapport skills to better understand and communicate with people. Readers will learn refined listening skills and how to discover other people’s decision-making strategies, which will enable them to better influence other people’s decisions and communicate flexibly. (HF 5718 Z853 2005)

Stress Management: Strategies for Emotional Fitness focuses on how to find a level of stress that is not only manageable, but also useful, and explores how to avoid stress beyond that level. This book by Merrill F. Raber and George Dyck defines stress and explains its effects on emotional health; examines strategies for coping with stress; explores meditation techniques; discusses how to make personal contacts positive and meaningful; and explores ways to attain and maintain emotional maturity. (RA 785 R237 2005)
