Who's in Charge? Leadership During Epidemics, Bioterror Attacks, and Other Public Health Crises by Laura H. Kahn. Santa Barbara, CA: Praeger Security International.
(RA 445 K24 2009)

GENERAL DVDs

D547 **The Most Difficult Healthcare Decisions** (DVD, 35 minutes)
Produced by a leader in medical ethics and emergency medicine, this program teaches leaders how to ethically allocate scarce resources during and after disasters. During and after disasters, vital resources invariably become scarce. To retain order and maintain the public's confidence, leaders must make allocation decisions ethically, providing resources to those most in need. In these situations, decision makers must decide how to prioritize between the needs of different patients and communities. The program addresses difficult allocation decisions in all types of disasters: at on-scene (multi-casualty incident), institutional, local, regional, and statewide levels. (The University of Arizona Health Sciences Center) (RA 427.2 I78 2007)

COMMUNICATIONS - BOOKS
