GENERAL DVDs

- D457 **American Heat, July 2007: Energetic Materials Identification and Response** (DVD, 30 minutes)
This program assists the responder in being able to evaluate and respond effectively to terrorism incidents that involve energetic materials. It supplies basic information concerning explosive and incendiary devices that could be used as terrorist weapons. It discusses specific actions required for a safe and effective response to incidents involving energetic materials. In addition, this program provides information regarding the threat of suicide bombings. (American Heat) (TH 9310.5 A443 2007 JUL)
- D591 **American Heat, March 2008: Medical Response to Terrorism** (DVD, 30 minutes)
This program covers medical response to terrorism and provides some suggestions on how to help fire crews prepare for such an event. The terrorist threat as it relates to the fire service is described. The program looks at basic triage tactics firefighters may need to perform during a terrorism incident response. Finally, the program describes community resources such as the Community Emergency Response Team (CERT) and Medical Reserve Corps (MRC) and how to utilize them. (American Heat) (TH 9310.5 A443 2008 MAR)
- D230 **Constant Threats: Terrorism and Disasters** (DVD, 53 minutes)
This course reviews the most current issues pertinent to EMS in terms of terrorism and disaster-relief issues. It includes an update on ricin, providing essential information on this toxic protein and actions and precautions to take when treating ricin victims. (Primedia Workplace Learning) (RA 645.5 C668 2005)
- D465 **Could a Russian School Siege Happen Here?** (DVD, 31 minutes)
The 2004 siege by Chechen rebels of a Russian elementary school resulted in the deaths of 323 hostages, including 156 children. Most law enforcement analysts agree that it is not a matter of whether, but when it will happen in the US. This program examines the preparations to be taken in anticipation of such an event. It identifies concerns faced by law enforcement in the event of an intruder assault on a school and strategies to prepare for and respond to such an event. It discusses ways to identify and prevent terrorist / intruder action. It also identifies the roles of civilians in preparing for and responding to such an event. (In the Line of Duty) (HV 6433 R9 C685 2006)

- D2168 **Domestic Radicalization** (DVD, 18 minutes)
Domestic radicalization is the process by which individuals in Canada (usually young people) are introduced to an overtly ideological message and belief system that encourages movement toward extreme views or violence. This program features an extended interview with Phil Gurski, who outlines the important role that frontline officers play in the battle against this “threat from within.” Phil Gurski worked as a strategic analyst in the Canadian Intelligence community for over 30 years, including 15 years at CSIS, and assignments with Public Safety Canada and the O.P.P. (OPVTA) (HV 7936 T7 O58 V.156)
- D239 **Emergency Response to Terrorism: Training for Emergency Responders**
(DVD, 134 minutes)
The threat of terrorism is a growing concern throughout the world. While we cannot always stop a terrorist attack, it is important to recognize these situations when they occur and be trained, equipped, and ready to respond. Emergency responders may be confronted with mass casualties, contamination, hazardous materials, trapped victims, a crime scene, and the dreaded secondary device targeted at responders. This DVD contains all six ODP training videos that are designed to increase the awareness and knowledge of emergency responders, enhance their safety, and ultimately help them effectively meet today's challenges involving emergency response to terrorism. (U.S. Department of Homeland Security Office for Domestic Preparedness) (HV 6432 E447 2004)
- D1849 **Land Transportation Security Technology** (DVD, 30 minutes)
This program will acquaint you with hidden hazards of some modern terrorist incidents and outline the steps for an effective and safe response. (National Institute of Justice) (HV 6432 L268 1999)
- D1290 **Signs of a Terror Attack: Critical Basics for Beat Cops** (DVD, 31 minutes)
The street officer has become the first line of defense in stemming the tide of terrorist activity. This program looks at ways officers can spot terrorist activity. They will become familiar with types of weapons that can be used along with items that can be used for making explosives. (In the Line of Duty) (HV 6432 S546 2011)
- D1847 **Stress: The Hidden Threat** (DVD, 60 minutes)
A panel discussion of emergency services personnel, family support service workers, the Red Cross and emergency mental health workers on the impact of terrorism on fire, rescue and law enforcement personnel and their families. Suggestions are offered to help people through troubled times. The discussion was conducted within two weeks of the September 11, 2001 attacks on the United States. (Emergency Education Network) (BF 575 S75 S768 2001)
- D196 **Terrorism DVD** (DVD, 10 minutes)
The threat of terrorism, from domestic sources and from abroad, has become another factor to consider when responding to a hazardous materials incident. This program covers preparedness, such as being aware of the local community and recognizing suspicious activities within it; and response to a terrorist incident, including what to do and what not to do. The program highlights the differences in a terrorist situation versus a regular hazardous materials response, particularly the nature of it being a crime scene and the potential for first responders themselves to be targets. (Annex Book Store) (HV 6431 T473 2006)

- D1080 **Terrorism and Homeland Security** (DVD, 52 minutes)
 Chief John Norman discusses the fire department's role in terrorism and homeland security, and firefighters' unique position to thwart terrorists' plans in order to keep ourselves, our families, and our country safe. He looks at the following: the history of terrorist activities on American soil; how terrorist tactics have changed over the years; and responding to terrorist attacks such as dirty bombs, chemical attacks, and biological incidents. (Annex Book Store) (HV 6431 T473 2010)
- D2148 **Terrorism: The Threat Within** (DVD, 14 minutes)
 There's little question that the events of 9/11 helped shape our perceptions of what terrorism is, and even what a terrorist looks like. But in terms of threats, recent trends suggest we need to start looking increasingly within our own borders. Whether it's an impressionable teen in search of an identity, or an extremist group willing to do anything to further their cause, terrorist acts with Canadian targets are being planned on domestic soil. Given the knowledge of their own communities, front-line police officers are well positioned to detect terrorist activity at the earliest stages of planning. Understanding the continuum of pre-incident indicators and knowing who to call for help will increase the odds of detecting and confronting the "threat from within." (Ontario Police Video Training Alliance) (HV 7936 T7 O58 V.105)

CASE STUDIES - DVDs

- D911 **Air India 182** (DVD, 97 minutes)
 Air India 182 is a first-person account of the Air India conspiracy and its tragic aftermath. The story is told by those who were directly involved, including families of those who died, key CSIS and RCMP investigators, and the conspirators themselves. Their testimony is interwoven with reconstructions of key moments in the conspiracy, based entirely on court documents, de-classified CSIS reports and wiretaps. The film counts down the final weeks and hours before Air India 182 disappeared off Irish radar screens. (CBC) (HV 433 A39 2008)
- D348 **Exercise Explorer: An Interagency Exercise in Counter Terrorism**
 (DVD, 40 minutes)
 This program presents a counter-terrorism case study of Exercise Explorer, a major structural collapse urban search and rescue exercise conducted by the NSWFB in July 2004. Produced as a documentary to encourage discussion and analysis, it captures and highlights the complexity of a significant and coordinated multi-agency emergency response to a building collapse involving fatalities, deeply entrapped casualties and the "walking wounded". (New South Wales Fire Brigades) (TH 9402 E964 2004)
- D1270 **Lockerbie, The Local Authority Response: Based on the Views and Experience of the Regional Chief Executive** (DVD, 32 minutes)
 Covers the following issues surrounding the Boeing 747 jumbo jet explosion and crash over Lockerbie, Scotland: initial response, management, care and support for the survivors and community, recovery and renewal after the disaster, and major issues of disaster response. (Home Office Emergency Planning College) (TL 553.5 L624 1990)

SEPTEMBER 11, 2001 TERRORIST ATTACKS - DVDs

D1923 **9/11** (DVD, 129 minutes)

On the morning of September 11, 2001, brothers Jules and Gedeon Naudet were working on a documentary about a rookie New York City firefighter. Hearing a roar in the sky, Jules turned his camera upward – just in time to film the only existing image of the first plane crashing into the World Trade Center Tower 1. With cameras rolling, the Naudets follow NYC firefighters into the heart of what would be known as Ground Zero. A striking tribute to real-life heroes who rose to extraordinary acts of courage and compassion. (Paramount Pictures) (HV 6432 N554 2002)

D1298 **A Diary between Friends** (DVD, 46 minutes)

Immediately following the collapse of the World Trade Center, 252 international flights were suddenly grounded in Canada. Every hotel room was soon filled, but Canadian ingenuity turned stadiums, churches, service clubs and schools into emergency shelters. Using footage from those harrowing days, personal videos, interviews, and recent reunions, this program follows individual Americans and Canadians as they gave support and friendship to each other. (Alliance Atlantis) (FC 249 D524 2002)

D002 **World Trade Center: Anatomy of the Collapse** (DVD, 52 minutes)

Discover how the twin towers were built, how they survived a terrorist attack in 1993, and why they came down eight years later. CGI graphics and eye-witness interviews unravel the split-second events of September 11th in visual detail, explaining the answers to the questions that haunt the American public and the world. WEAPONS OF MASS DESTRUCTION - DVDs

- D1764 **Responding to a WMD Crime Scene** (DVD, 28 minutes)
Emergency responders may find themselves responding unknowingly to a criminal incident involving weapons of mass destruction (WMD). This is an entirely new and different set of responsibilities for the emergency responder. The purpose of this video is to demonstrate the responsibilities of recognizing, identifying and preserving potential evidence at a WMD crime scene, thereby affording the best possibility for positive identification of suspects and successful prosecution. (U.S. Department of Homeland Security Office for Domestic Preparedness) (HV 551.3 R479 2004)
- D596 **Terrorism: Biological Weapons** (DVD, 28 minutes)
Training program for law enforcement, fire departments, EMS, and other emergency management personnel most likely to be first on the scene of a suspected terrorist incident that might involve biological agents. Topics include: how biological agents work, key indicators of a biological release, self-protective measures for responders, categories of biological agents, identifying the agent involved, decontamination and quarantine, and securing the scene. (Emergency Film Group) (HV 6431 T463 2007)
- D597 **Terrorism: Chemical Weapons** (DVD, 29 minutes)
Training program for law enforcement, fire departments, EMS, and other emergency management personnel most likely to be first on the scene of a suspected terrorist incident that might involve chemical agents. Topics include: categories of chemical agents, toxicology and symptoms of exposure, weaponization and dissemination, self-protection measures for responders, identifying the agent involved, managing casualties, decontamination and ventilation, and incident command. (Emergency Film Group) (HV 6431 T464 2007)
